Battle Infinity (IBAT) to List on LBank Exchange This Week - IBAT Will Increase

The rising [IBAT](#) value can be attributed to the impending listing of [Battle Infinity](#) on the [LBank exchange](#). The Battle Infinity gaming platform features a number of different “Pay to win” (P2E) combat games. The IBAT Battle Arena is a Metaverse setting into which all games can be played.

In addition to playing video games and engaging in battles, players in the Battle Infinity realm can explore the expansive Metaverse. In the Battle Arena, they can interact with one another in a variety of ways, including performing for, watching, and learning about one another. IBAT is rising in popularity as a practical cryptocurrency. On Wednesdays at 16:00 UTC, this token was available for purchase on PancakeSwap.

Those who missed out on the presale will have another opportunity to buy tokens on August 17th. Token holders stand to gain 10x if IBAT launches on PancakeSwap.

In spite of the bearish market, the token’s pre-IDO initial dex offering (IDO) price increased by nearly 700%, from \$0.0015 to \$0.011. That makes it a top performer among crypto IDOs this year. These are early pre-sale reactions, so it’s possible that opinions will change. The designers also revealed a limit on liquidity.

LBank Exchange Will Feature a Listing for Battle Infinity

Once the Battle Infinity team announced that IBAT would be featured on data services like Coingecko and Coinmarketcap, the token’s value skyrocketed.

The recent news from LBank states that IBAT (Battle Infinity) will be listed on LBANK very shortly. LBank has a daily trading volume of over \$1 billion, making it the eighteenth busiest cryptocurrency exchange, per Coinmarketcap. At present time, there are more than 7,290 token holders.

Because of the enthusiastic response from the cryptocurrency community, this listing on a controlled exchange (CEX) is likely to be the first of many.

Introduce IBAT in New Delhi Party Draws Celebrities

Urvashi Rautela, a former Miss Universe and current Bollywood actress, was present at Battle

Infinity, ensuring that the event will be widely discussed for some time to come. Supporting the coin was the fact that the legendary Irfan Pathan played cricket for the Indian national team.

It only took the Battle Infinity presale 25 days to raise 16,530 BNB, and since the ICO, the demand for the coin on the decentralized market has only grown. On Wednesday, the token was released formally at a fancy launch ceremony in New Delhi attended by celebrities.

The Exuberance of Investors Regarding IBAT Raise the Question, Why?

Here are a few of the reasons why IBAT is so appealing to traders and investors.

- Compared to Axie, which is vulnerable to hacking and technological concerns, Battle Infinity is more safe and reliable.
- It's important to note that only 28% of the total quantity of IBAT tokens (10 billion coins) will be made available during the presale event. As a result, demand is expected to increase even further.
- Suresh Joshi, co-founder of Battle Infinity, has stated that CoinSniper's safe KYC checks are a great addition to the Battle Infinity platform.
- DappRadar claims that until June 2022, in-game NFTs on Blockchain gaming platforms will continue functioning as expected.

Is it Possible to Foresee Increases in IBAT?

The IBAT presale raised \$5 million in BNB token sales 66 days ahead of schedule. The second allocation sold out in less than 24 hours during the presale.

In addition, IBAT has assembled a hard-charging advertising team to promote the token's adoption. The same advertising agency has also been responsible for the success of items like Lucky Block.

Battle Infinity has a good shot at beating Lucky Block's record of 90 times as much as the team's marketing efforts thanks to its fresh take and clearly laid out roadmap.

The Procedure for Obtaining IBAT from LBank and Its Future Use

Since LBank is a controlled exchange, all you need to do to buy the cryptocurrency is log into your LBank account and pay for the transaction with Tether (USDT). When making a purchase on the Pancakeswap exchange, a 12% sales tax is applied, however when using LBank, you pay no fees and no taxes.

As a rapidly growing Hong Kong-based exchange, LBank provides its customers with top-notch trade execution and detailed educational resources.
