Founded in 2018 by Bilal Hammoud and Usman Sheikh, NDAX is a Canadian-focused cryptocurrency trading platform recognized for its high-security standards and regulatory compliance. With a mission to bridge the gap between traditional finance and the dynamic world of cryptocurrencies, NDAX distinguishes itself in the competitive crypto trading landscape through its unwavering commitment to security, user experience, and adherence to regulations.

Moreover, NDAX's robust features make it an excellent choice for both individuals and businesses. This broad appeal underscores the platform's comprehensive approach to catering to various types of traders. It supports a wide array of cryptocurrencies, including popular options such as Bitcoin (BTC), Ethereum (ETH), and Solana (SOL). While it excels in providing a secure trading environment, its exclusivity to Canadian residents and the absence of margin and futures trading options may pose limitations for some users.

To have a better knowledge about this exchange, the following chart sets forth the pros & cons of NDAX:

	Pros	Cons
NDAX	<ul style="list-style-type: none"> • All-in-one trading platform for individuals • Earn passive income through Ndash staking • High-level of security and compliance • High transaction speeds for trades, deposits, and withdrawals 	<ul style="list-style-type: none"> • Limited Crypto Selection: with only 38 cryptocurrencies available • There are no solutions for novice traders (for example, demo accounts). • Canadian-focused trading platform • charge a flat fee for EFT withdrawals and lacks diversity in withdrawal methods

Summary

NDAX, a Canada-based leading exchange, is indeed a good choice for traders in Canada. Although it develops rapidly and becomes more and more popular due to its low fees, high security and strict regulation compliance, however, there is no denying that some disadvantages do exist in NDAX, like limited cryptocurrency choice and being less friendly for novice traders. That's why we intend to introduce [BTCC](#), the longest running [exchange](#) in the world.

After comparison, it is not difficult to find that BTCC performs better than NDAX in several aspects. We are more willing to introduce BTCC for its great advantages. The key points why we choose BTCC set forth as below:

Industry-leading security

BTCC attaches great importance on security. Since founded in 2011, BTCC has never been hacked or been a victim of any other kind of successful malicious attack, which fully illustrates its security capabilities. Through measures like segregation of assets, 1:1 storage of users' assets, money laundering prevention and identity authentication and no collateralising tokens for loans, BTCC enjoys good reputation in asset security.

High liquidity & volume

BTCC is ranked top 10 by trading volume on both CoinMarketCap and CoinGecko, the world's two largest crypto information platforms. BTCC prides itself on providing crypto futures trading services to users worldwide with market-leading liquidity, offering perpetual futures on over 100 cryptocurrencies, including BTC, ETH, DOGE, LTC, SOL, XRP, SHIB, etc.

Extremely low fees

Charging high fees means less return for investors. Compared with other major exchanges, BTCC only charges 0.045% for takers and 0.025% for makers, which are far below the industry average.

High and rich rewards

BTCC holds all kinds of campaigns where investors can participate to win exciting rewards. For example, new users can get rewards up to 10,055 USDT coupon through completing relevant missions, like registration, identity verification, first deposits, cumulative futures trading volume, etc. Besides, becoming VIP also can enjoy rewards like VIP-exclusive perks, including discounts on trading fees, access to exclusive campaigns, BTCC merch, priority customer support, fast

withdrawal, and many more.

Large and flexible funding options

In addition to the major digital currencies like BTC, ETH, BCH, LINK, LTC, ADA, DOT, EOS, XRP, and UNI, investors can also trade DASH, DOGE, SHIB, FIL, XLM, XMR, GRT, RNDR, EGLD, and KLAY on BTCC. BTCC offers flexible leverage up to **500x** across daily and perpetual contract types, supporting a wide range of popular trading pairs such as BTC/USDT, ETH/USDT, ADA/USDT.
