Cats (CATS) Airdrop Launch Date

After 47 days, hundreds of people have accessed the CATS airdrop. Withdrawals will be possible following the token launch in Q3 of 2024, even though trading and exchange are still restricted. Thanks to Bitget's pre-market listing, the crypto airdrop is once again in the spotlight, and plenty of other exchanges are on the way. A large number of people use it, and the association with Pavel Durov has generated a lot of interest, so it should be a welcome addition to the cat-themed tokens community.

The requirements for receiving the token are very identical to those of the DOGS airdrop. Anyone who uses Telegram can participate in this cryptocurrency airdrop. Nevertheless, the amount could change depending on the account's age, the user's engagement level, and whether they are a premium member.

To participate in the crypto airdrop, consumers must visit Cats(CATS) and activate the bot. Account details such as age, premium status, activity level, and OG status will be summarized by the bot here in this section of the user's Telegram usage. The screen will show the amount of tokens that a user is entitled for once the analysis is finished.

The social networking site also offers a referral feature that users may utilize to tell their friends and family about the site. They can also earn tokens by completing a plethora of smaller chores. After the official announcement, users can get their hands on these CATS tokens by giving their TON wallet a like.

Conclusion

Following the Biget pre-token launch of the Cats, investors are now viewing the currently live CATS airdrop with interest. Because of the easy qualifying requirements, anticipation is even higher for this. In addition, by doing easy activities and earning referrals, users can earn even more. With just five million users already part of the CATS network, and seven and a half million tokens in circulation, CATS has quickly become a community darling.
