What is Catslap (\$SLAP)?

Catslap is a new cat-themed meme coin built on the Ethereum blockchain that's based on a "slapping cat". CATSLAP is crypto's most aggressive feline, poised to attack even the highest market cap meme coins. The SLAP token is here to dethrone the frogs and dogs on the block.

Featuring a viral slapping clicker game, players can click or tap on a cat to deliver a slap to Pepe, Gary Gensler, or other enemies of the meme coin sector. Players earn points for every slap they deliver, and Catslap tracks points by country to turn its slapping game into an international competition. Notably, Catslap is one of the top cat meme coins to watch as its SLAP token has jumped by over 2,600% since its inception on November 21.
