Defi App Airdrop Guide: How to Claim \$HOME Token

Before putting it on the main exchange, Binance made an official statement about its 22nd project, the DeFi App (HOME), on the HODLer Airdrops portal.

With the help of the DeFi App, a decentralized cryptocurrency superapp, anyone new to the market can trade any token on any chain with complete self-custody, no bridges, and no gas costs.

The DeFi App initiative, which has partners like Fomo Ventures, LayerZero Founders, and Bankless VC, bills itself as “crypto’s everything app.” The initiative aims to remove the complexity of cryptocurrency so that people can concentrate on their priorities.

What is Defi App

A full-featured decentralized banking platform, Defi App calls itself “Crypto’s Everything App,” and its goal is to streamline DeFi interactions by removing typical obstacles such as confusing user interfaces, disjointed ecosystems, and exorbitant gas prices. Through its integration with many blockchains, the platform provides a one-stop shop for trading, yield farming, and perpetual futures trading.

A gasless transaction system, in which the platform sponsors fees, does away with the necessity for users to possess particular gas tokens, and native account abstraction simplifies wallet maintenance. While upholding the concepts of self-custody, this technique makes DeFi interactions intuitive. With 350,000 active traders and over \$15 billion in trading volume, Defi App was able to receive \$2 million in seed funding headed by Mechanism Capital. On June 10, 2025, the app introduced its native token, \$HOME.

What is Defi App Airdrop

Tokens called \$HOME will be distributed to community members and early platform players who were involved in the development of the Defi App ecosystem as part of the airdrop. Eligible users can claim their tokens on the official site; the airdrop is live and confirmed.

“Defi App Yappers” (active community members) will receive 50,000,000 \$HOME tokens as part of the distribution, and another half a million will be set aside for individuals who want to stake their claimed tokens. Participants in the Pre-TGE KaitoAI Leaderboard activities and other Season 1 XP initiatives will be recognized with the airdrop. Rewards were available to more than 3,000 users that participated in the closed beta, explored the platform, and were active members of the community.

How to Claim \$HOME Tokens

Check Out the Official Defi App Store

Visit the Defi App’s official website.

Link Your Wallet

Link the wallet address you used to complete the qualifying tasks.

The platform’s account abstraction features allow it to accommodate a variety of wallet kinds.

Verify Your Eligibility

Your wallet’s eligibility for the airdrop will be automatically determined by the platform.

Addresses that took part in Kaito activities and Season 1 XP programs are eligible.

Examine Your Allocation

See how many \$HOME tokens have been assigned to your address and take note of any further staking bonuses for which you might qualify.

Claim Tokens

To begin the token distribution process, click the “Claim” button.

Verify the transaction in the wallet you are connected to.

The Defi App platform sponsors the gasless claiming procedure.

Think About Your Staking Options

Examine the extra 50 million tokens available to stakers.

Before making a choice, review the staking terms and possible prizes.

Conclusion

Defi App's airdrop is a chance for early adopters to be a part of a platform that will help bring decentralized and centralized finance closer together. Users that are qualified to receive \$HOME tokens and participate in the additional staking benefits have until July 10, 2025, to do so, as the tokens are currently live and trading.

Many existing issues with DeFi are addressed by the platform's emphasis on gasless transactions, cross-chain capability, and user experience enhancements. Being a part of an ecosystem that aims to attract mainstream crypto usage while keeping self-custody principles could be beneficial for early participants through the airdrop program as the project develops its "everything app" ambition.

Those who are qualified can gain exposure to a well-funded project that has early traction by claiming the airdrop. Staking or long-term token holding decisions should be preceded by participant study on the dangers involved, as is the case with all crypto investments.

FAQs

Can my allocation for the airdrop be increased?

Based on previous actions, the basic allocation is set. Nonetheless, there are chances to expand overall \$HOME holdings above the initial airdrop amount because to the additional 50 million token pool for stakers.

After claiming, what can I do with my \$HOME tokens?

Within the Defi App ecosystem, \$HOME tokens have several uses, such as participating in governance, staking for rewards, and taking use of the platform's revenue flywheel mechanism. On approved exchanges, token holders can also trade \$HOME.

Does participation demand a minimum amount?

For qualifying addresses, there is no minimum claiming amount. Regardless of the quantity of the allotment, all eligible users are able to claim their tokens.

What is the cutoff date for \$HOME token claims?

The deadline for filing claims is July 10, 2025. Since unclaimed allocations might not be accessible after this date, eligible users must claim their tokens before then.

How did eligibility for the airdrop get decided?

Participation in Season 1 XP programs, involvement in closed beta activities, and participation in the Pre-TGE KaitoAI Leaderboard were the main criteria for eligibility. Rewards were given to users who participated actively in the platform's development stages.

How to Trade Crypto on BTCC?

This brief instruction will assist you in registering for and trading on the BTCC exchange.

Step 1: Register an account

The first step is to hit the “Sign Up” button on the BTCC website or app. Your email address and a strong password are all you need. After completing that, look for a verification email in your inbox. To activate your account, click the link in the email.

Step 2: Finish the KYC

The Know Your Customer (KYC) procedure is the next step after your account is operational. The main goal of this stage is to maintain compliance and security. You must upload identification, such as a passport or driver's license. You'll receive a confirmation email as soon as your documents are validated, so don't worry—it's a quick process.

Step 3. Deposit Funds

After that, adding money to your account is simple. BTCC provides a range of payment options, such as credit cards and bank transfers. To get your money into your trading account, simply choose what works best for you, enter the amount, and then follow the instructions.

- **Fiat Deposit.** Buy USDT using Visa/Mastercard (KYC required).
- **Crypto Deposit.** Transfer crypto from another platform or wallet.

Fund Your Account

other crypto and deposit via the blockchain.

Step 4. Start Trading

If you wish to follow profitable traders, you might go for copy trading, futures, or spot trading. After choosing your order type and the cryptocurrency you wish to trade, press the buy or sell button. Managing your portfolio and keeping track of your trades is made simple by the user-friendly interface.

BTCC FAQs

Is BTCC safe?

Based on its track record since 2011, BTCC has established itself as a secure cryptocurrency exchange. There have been no reports of fraudulent activity involving user accounts or the platform's infrastructure. By enforcing mandatory know-your-customer (KYC) and anti-money laundering (AML) procedures, the cryptocurrency trading platform gives consumers greater security. For operations like withdrawals, it also provides extra security features like two-factor authentication (2FA).

Is KYC Necessary for BTCC?

Indeed. Before using BTCC goods, users must finish the Know Your Customer (KYC) process. A facial recognition scan and legitimate identification documents must be submitted for this process. Usually, it is finished in a few minutes. This procedure has the benefit of strengthening the security of the exchange and satisfying legal requirements.

Because their accounts will have a lower daily withdrawal limit, those who do not finish their KYC are unable to make deposits. It should be noted that those who present a legitimate ID without a facial recognition scan will likewise have restricted withdrawal options.

Is There a Mobile App for BTCC?

Indeed. For users of iOS and Android, BTCC has a mobile app. The exchange's website offers the mobile app for download. Since both the web version and the mobile app have the same features and capabilities, they are comparable.

Will I Have to Pay BTCC Trading Fees?

Indeed. BTCC levies a fee for trade, just like a lot of other centralised exchanges. Each user's VIP level, which is unlocked according to their available money, determines the different costs. The BTCC website provides information on the charge rates.

Can I Access BTCC From the U.S?

You can, indeed. According to its website, BTCC has obtained a crypto license from the US Financial Crimes Enforcement Network (FinCEN), which enables the cryptocurrency exchange to provide its services to investors who are headquartered in the US.

According to BTCC's User Agreement document, its goods are not allowed to be used in nations and organisations that have been sanctioned by the United States or other nations where it has a licence.
