DIGI Tokenomics

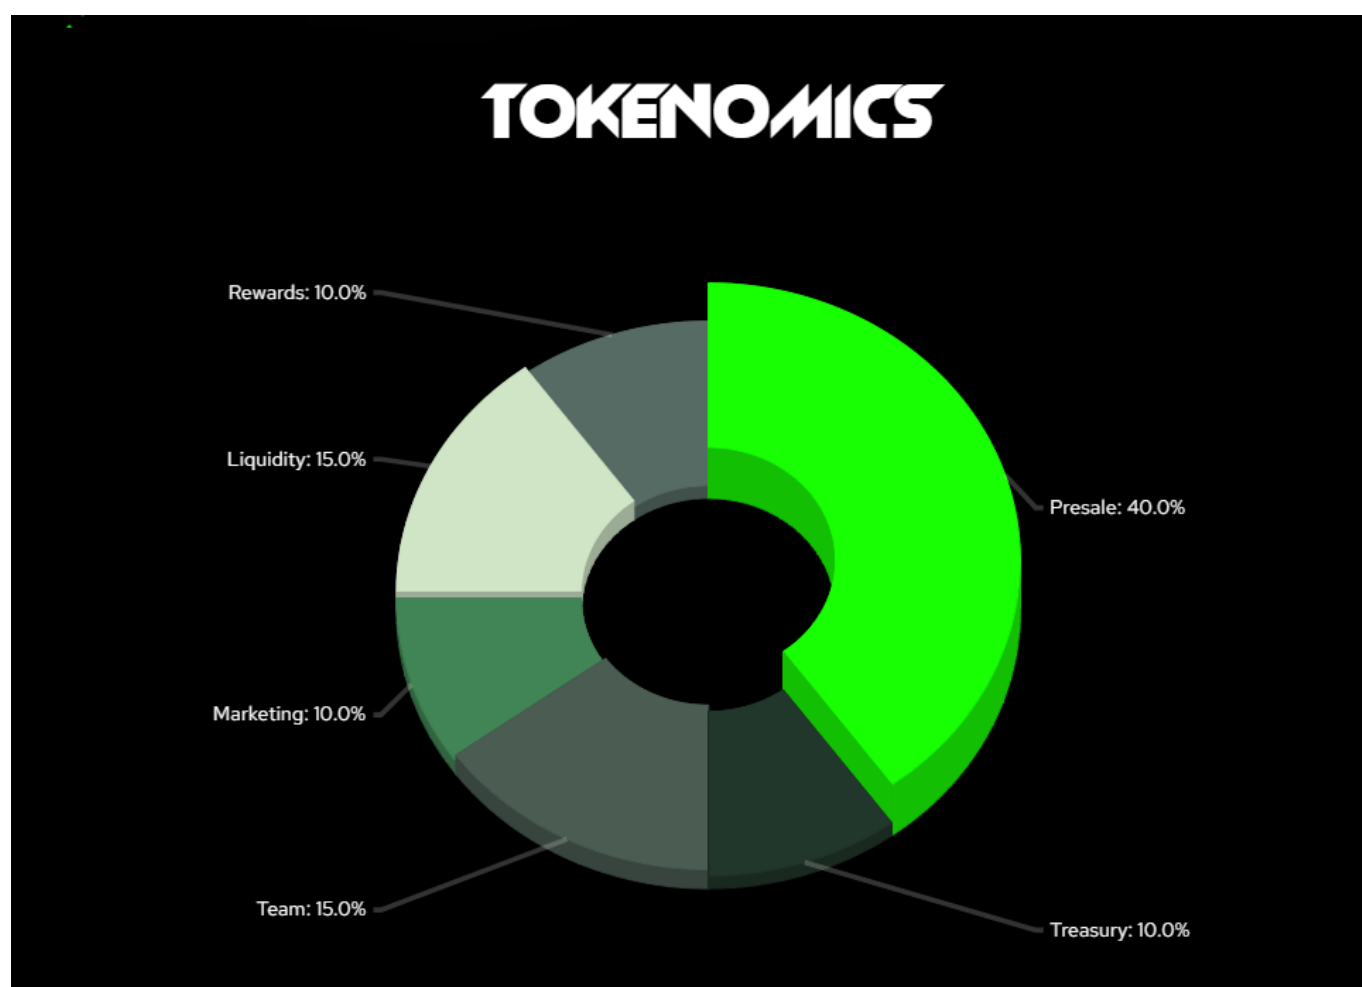

DigiHorse designs a strong tokenomics to ensure a balanced supply and demand of DIGI, preventing the hyperinflationary issues that plagued its predecessors like SLP and SAND. By carefully allocating tokens across these categories, DigiHorse Empires aims to create a sustainable and vibrant ecosystem where all participants can contribute to and benefit from the platform's success.

With a total token supply of 1,125,000,000 \$DIGI, the token allocation is as follows:

- **Presale (40%):** A significant portion of the token supply, totaling 450,000,000 \$DIGI, is allocated for the presale phase. This allows early supporters and investors to acquire tokens at a favorable rate, providing crucial funding for the project's initial development and expansion.
- **Team (15%):** To incentivize and reward the dedicated team behind DigiHorse Empires, 168,750,000 \$DIGI tokens, representing 15% of the total supply, are allocated for team

members. This ensures alignment of interests and encourages continued commitment to the project's success.

- **Liquidity (15%):** Ensuring sufficient liquidity is crucial for a thriving ecosystem and seamless trading experience. Therefore, 168,750,000 \$DIGI tokens, comprising 15% of the total supply, are allocated to liquidity pools to facilitate trading and price stability on supported exchanges.
- **Treasury (10%):** A reserve of 112,500,000 \$DIGI tokens, equivalent to 10% of the total supply, is allocated to the treasury. These tokens are earmarked for strategic partnerships, development initiatives, and future expansion plans, providing financial stability and flexibility for the project.
- **Marketing (10%):** Effective marketing and outreach are essential for driving adoption and engagement within the community. Therefore, 112,500,000 \$DIGI tokens, accounting for 10% of the total supply, are allocated for marketing efforts to promote awareness and attract users to the platform.
- **Rewards (10%):** To incentivize user participation and engagement on the platform, 112,500,000 \$DIGI tokens, representing 10% of the total supply, are allocated for rewards. These tokens are distributed to users for various activities such as racing, breeding, and staking, enhancing user retention and loyalty.

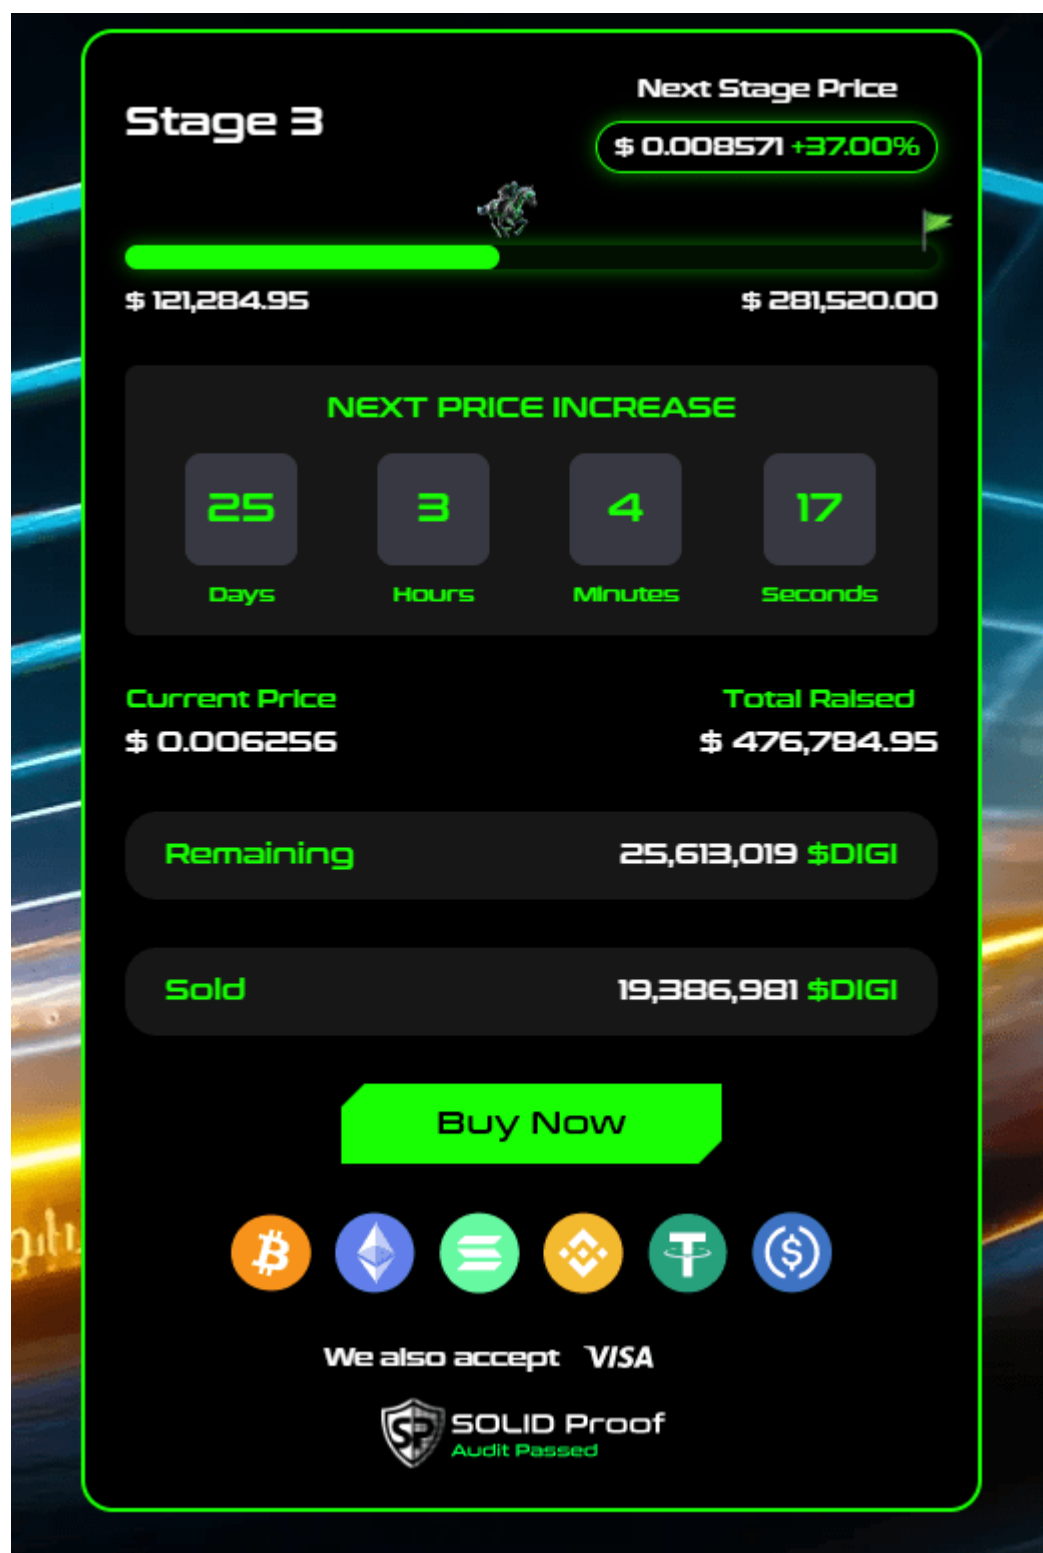

DigiHorse (DIGI) Presale

DigiHorse (DIGI) Presale is live now. DigiHorse (DIGI) offers investors significant upside potential with its ongoing presale phase, where 450,000,000 \$DIGI tokens are available at a favorable rate.

Currently, DigiHorse (DIGI) Presale is under stage 3, when investors can grab up this token on a discounted price of \$0.006256. Notably, the third stage of DigiHorse's presale has already generated

over \$ 121,284 as of September 4. With stages 1 and 2 selling out quickly, experts anticipate that stage 3 will close sooner than expected, given the growing interest and momentum behind the project.

As the project advances, DIGI token price is set to increase substantially, with a projected rise from \$0.003333 in Stage 1 to a listing price of \$0.075, representing a 2,150% gain.

After presale, DigiHorse (DIGI) will be listed on various centralized and decentralized exchanges, including a minimum of two top-tier platforms.
