Doodles (DOOD) Airdrop Guide: How to Claim Free \$DOOD Token?

Whether you are an NFT holder or a member of the new wave that is learning about Doodles through partner communities, the \$DOOD airdrop gives you the opportunity to solidify your position in the Doodles ecosystem.

The airdrop is the initial stage in putting \$DOOD into circulation, with the Token Generation Event (TGE) set for May 9, 2025. Missing claim windows, snapshot checks, and registration stages could result in your allotment being completely forfeited. Before the time runs out, follow this guide to find out who is eligible, how to check and how to get your DOOD tokens.

Key Takeaways:

- In Doodles 2, DOOD is the utility token that drives ecosystem access, governance, and avatar enhancements.
- You may qualify if you owned Doodles assets or participated in partner communities prior to the snapshot.
- The airdrop is active, claimable, and thought to be valuable both now and in the future.

What is DOOD Airdrop?

The new utility token \$DOOD, developed by the Doodles ecosystem, is being formally distributed through the DOOD airdrop. In order to show appreciation to its most loyal fans and holders on Ethereum and Solana, Doodles is conducting this airdrop.

Register for [\\$DOOD](#) Airdrop

☐ Doodles NFT holders can now register for the airdrop in the link below

Check eligibility & register: <https://t.co/ErWRuJR936>

☐ Eligible Communities (checker soon):

13% of the supply will be allocated to partner communities, including BonkBot,...

pic.twitter.com/XNPidesV1C

— Cratius (@HappyCratius) [May 8, 2025](#)

This is more than an advertising gimmick. The purpose of the airdrop is to provide \$DOOD to individuals who will put it to good use by creating avatars, gaining access to digital experiences, voting on proposals, and shaping Doodles' future projects.

If you're a member of Doodles' New Blood partner communities, have a Genesis Box, or are a Dooplicator, you can acquire your first DOOD allotment and a front-row ticket to everything that follows during the airdrop.

How to Claim your DOOD Token?

Determining your eligibility is the first step in claiming \$DOOD, and the Doodles team has made that process quite easy. Depending on the wallet type you used, here's how to check:

If an EVM wallet, such as MetaMask, is being used,

- Visit the dood.doodles.app page.
- Select “Connect Wallet.”
- Choose your Ethereum wallet (such as Rainbow, MetaMask, etc.).
- The website will immediately check your wallet for suitable assets as soon as you connect.
- Your DOOD allocation will be displayed directly on the dashboard if you are logged in.
- Whenever “Claim” appears on the dashboard, click it to authorise the transaction in your wallet.

If a Solana wallet, like as Phantom or Backpack, is being used:

- Soon, Solana wallet support will be available.
- Soon, a different Solana eligibility checker will be accessible.
- For the live URL, keep checking dood.doodles.app and official Doodles social media accounts.
- The “Claim” procedure will resemble the Ethereum wallets’ procedure.

DOOD Airdrop Eligibility

The purpose of the \$DOOD airdrop is to compensate active members of the Doodles ecosystem and certain partner communities. Below is a summary of those who are eligible:

[\\$DOOD](#) will be launching on Solana ☐

we’ve optimized for a smooth experience and will be airdropping [\\$DOOD](#) to eligible communities, whether you’re a current Doodles NFT holder or a New Blood community member.

Conclusion

Earn free tokens from one of the longest running and most entertaining web3 ecosystems—\$DOOD—if you qualify for the airdrop. Considering its potential use in avatar enhancements, voting, and future benefits, as well as its anticipated price of roughly \$0.03 per DOOD, it's probably worth clicking on. Your very presence is an advantage, regardless of whether you use it or trade it. Obviously, you must make online safety a top priority. Be wary of phishing scams and only click on genuine sites.

Why Trade Crypto on BTCC

Founded in 2011, BTCC is among the world's oldest and most reliable bitcoin exchanges. Many traders use BTCC because it has established a solid reputation in the market for security and regulatory compliance over the years. The platform is especially well-suited for traders in North America and Europe, with presences in the US, Canada, and Europe.

In addition to bitcoin trading, BTCC provides traders with access to non-crypto assets including gold, silver, and U.S. equities through cutting-edge features like copy trading, perpetual futures, and tokenized stocks. Both novice and seasoned traders searching for a secure and regulated platform can benefit from BTCC's range of offerings.

The firm's products are designed to meet the needs and desires of both rookie and experienced traders. Here are five reasons for using the exchange:

- Numerous transferable assets
- Excessive trading leverage
- Strong copy trading capabilities
- Perfect security record
- Interface that is easy to use
- Accessible to traders in the US and Canada

[BTCC Bonuses and Special Offers]

- (1) [New User Welcome Reward](#): As a new user, you can claim a welcome reward of up to **10,055** USDT.
- (2) [Referral Program](#): You can earn up to **35% commission on your referrals, plus up to 10,060 USDT in rebates per referral.**

How to Trade Crypto on BTCC?

This brief instruction will assist you in registering for and trading on the BTCC exchange.

Step 1: Register an account

The first step is to hit the “Sign Up” button on the BTCC website or app. Your email address and a strong password are all you need. After completing that, look for a verification email in your inbox. To activate your account, click the link in the email.

Step 2: Finish the KYC

The Know Your Customer (KYC) procedure is the next step after your account is operational. The main goal of this stage is to maintain compliance and security. You must upload identification, such as a passport or driver's license. You'll receive a confirmation email as soon as your documents are validated, so don't worry—it's a quick process.

Step 3. Deposit Funds

After that, adding money to your account is simple. BTCC provides a range of payment options, such as credit cards and bank transfers. To get your money into your trading account, simply choose what works best for you, enter the amount, and then follow the instructions.

- **Fiat Deposit.** Buy USDT using Visa/Mastercard (KYC required).
- **Crypto Deposit.** Transfer crypto from another platform or wallet.

Fund Your Account

I don't have crypto assets

Fiat Deposit

Fund your account with USDT using Visa/Mastercard

P2P

Buy and sell cryptos with flexible payment methods and 0 transaction fees.

I have crypto assets

Crypto Deposit

Get the deposit address for BTC, ETH, or any other crypto and deposit via the blockchain.

Step 4. Start Trading

If you wish to follow profitable traders, you might go for copy trading, futures, or spot trading. After choosing your order type and the cryptocurrency you wish to trade, press the buy or sell button. Managing your portfolio and keeping track of your trades is made simple by the user-friendly

interface.

BTCC FAQs

Is BTCC safe?

Based on its track record since 2011, BTCC has established itself as a secure cryptocurrency exchange. There have been no reports of fraudulent activity involving user accounts or the platform's infrastructure. By enforcing mandatory know-your-customer (KYC) and anti-money laundering (AML) procedures, the cryptocurrency trading platform gives consumers greater

security. For operations like withdrawals, it also provides extra security features like two-factor authentication (2FA).

Is KYC Necessary for BTCC?

Indeed. Before using BTCC goods, users must finish the Know Your Customer (KYC) process. A facial recognition scan and legitimate identification documents must be submitted for this process. Usually, it is finished in a few minutes. This procedure has the benefit of strengthening the security of the exchange and satisfying legal requirements.

Because their accounts will have a lower daily withdrawal limit, those who do not finish their KYC are unable to make deposits. It should be noted that those who present a legitimate ID without a facial recognition scan will likewise have restricted withdrawal options.

Is There a Mobile App for BTCC?

Indeed. For users of iOS and Android, BTCC has a mobile app. The exchange's website offers the mobile app for download. Since both the web version and the mobile app have the same features and capabilities, they are comparable.

Will I Have to Pay BTCC Trading Fees?

Indeed. BTCC levies a fee for trade, just like a lot of other centralised exchanges. Each user's VIP level, which is unlocked according to their available money, determines the different costs. The BTCC website provides information on the charge rates.

Can I Access BTCC From the U.S?

You can, indeed. According to its website, BTCC has obtained a crypto license from the US Financial Crimes Enforcement Network (FinCEN), which enables the cryptocurrency exchange to provide its services to investors who are headquartered in the US.

According to BTCC's User Agreement document, its goods are not allowed to be used in nations and organisations that have been sanctioned by the United States or other nations where it has a licence.
