## Historical Gold Price Trends in India

Understanding past gold prices helps forecast future movements.

### Gold Price Trend (Last 5 Years)

## What Affects Gold Price in India?

Several domestic and global factors influence gold rates in India:

### 1. Global Gold Prices

India imports most of its gold. International prices (in USD/oz) directly impact Indian prices.

### 2. INR to USD Exchange Rate

If the Indian Rupee weakens against the U.S. Dollar, gold becomes more expensive.

### 3. Import Duty

The Government of India imposes import duties on gold. An increase in duty makes gold costlier.

### 4. GST (Goods and Services Tax)

Currently, gold attracts a 3% GST in India. Changes can affect prices.

### 5. Inflation and Interest Rates

Gold is a hedge against inflation. High inflation and low interest rates make gold more attractive.

### 6. Demand During Festivals & Weddings

Seasonal demand spikes (Diwali, Akshaya Tritiya, wedding seasons) can increase prices locally.

### 7. Geopolitical Tensions

Crises or war push investors toward gold as a “safe-haven” asset, increasing global demand and price.

## BTCC FAQs

### Is BTCC safe?

Based on its track record since 2011, BTCC has established itself as a secure cryptocurrency exchange. There have been no reports of fraudulent activity involving user accounts or the platform's infrastructure. By enforcing mandatory know-your-customer (KYC) and anti-money laundering (AML) procedures, the cryptocurrency trading platform gives consumers greater security. For operations like withdrawals, it also provides extra security features like two-factor authentication (2FA).

### Is KYC Necessary for BTCC?

Indeed. Before using BTCC goods, users must finish the Know Your Customer (KYC) process. A facial recognition scan and legitimate identification documents must be submitted for this process. Usually, it is finished in a few minutes. This procedure has the benefit of strengthening the security of the exchange and satisfying legal requirements.

Because their accounts will have a lower daily withdrawal limit, those who do not finish their KYC are unable to make deposits. It should be noted that those who present a legitimate ID without a facial recognition scan will likewise have restricted withdrawal options.

### Is There a Mobile App for BTCC?

Indeed. For users of iOS and Android, BTCC has a mobile app. The exchange's website offers the mobile app for download. Since both the web version and the mobile app have the same features and capabilities, they are comparable.

## **Will I Have to Pay BTCC Trading Fees?**

Indeed. BTCC levies a fee for trade, just like a lot of other centralised exchanges. Each user's VIP level, which is unlocked according to their available money, determines the different costs. The BTCC website provides information on the charge rates.

## **Can I Access BTCC From the U.S?**

You can, indeed. According to its website, BTCC has obtained a crypto license from the US Financial Crimes Enforcement Network (FinCEN), which enables the cryptocurrency exchange to provide its services to investors who are headquartered in the US.

According to BTCC's User Agreement document, its goods are not allowed to be used in nations and organisations that have been sanctioned by the United States or other nations where it has a licence.
