How to Trade Bitcoin Futures on BTCC

Futures contracts are types of derivatives product where their values are derived from an underlying asset. The underlying assets can be a stock, bonds, or commodities. In the case of cryptocurrency futures contracts, the underlying asset would be crypto asset (Bitcoin BTC).

Unlike buying Bitcoin directly from the spot market, a bitcoin futures contract is generally traded on leverage. This means you can buffer up your purchasing power and potential profit by borrowing money up to 150X from the exchange like [BTCC](#).

BTCC offers daily, weekly futures and perpetual contracts for Bitcoin derivative trading. The weekly Bitcoin futures contracts can be held up to a maximum of one week starting from Sunday 09:00 – Sunday 05:00 (UTC+8). However, the Bitcoin perpetual contracts has no expiry period, and you can maintain your position as long as you meet the margin requirements.

What are Bitcoin Futures?

With Bitcoin futures, the contract will be based on Bitcoin's price, and speculators can "bet" on what they expect Bitcoin's future price will be. In addition, it allows investors to speculate on Bitcoin's price without really owning Bitcoin.

It has two important repercussions. First, while Bitcoin itself is unregulated, Bitcoin futures can be traded on exchanges that are governed. Those concerned about the risks associated with the industry's lack of regulation will welcome this development.

Second, in regions where Bitcoin trading is prohibited, Bitcoin futures allow investors to speculate on Bitcoin's price.

This will redirect you to the registration page, where you will be required to submit some basic information, including your email address or phone number and a password. Enter the Referral code below to receive rewards if you have been referred by another BTCC user.

Next, you will receive a confirmation email to validate your identity. Execute the procedure by adhering to the instructions provided in the email. This procedure guarantees that your new BTCC account is exclusively accessible to you.

2.2 Verify Your Identity

In order to comply with KYC/AML regulations, licensed crypto exchanges such as BTCC are required to identify all registered users. To accomplish this, you will require a government-issued identification document, such as a national ID, passport, or driving license.

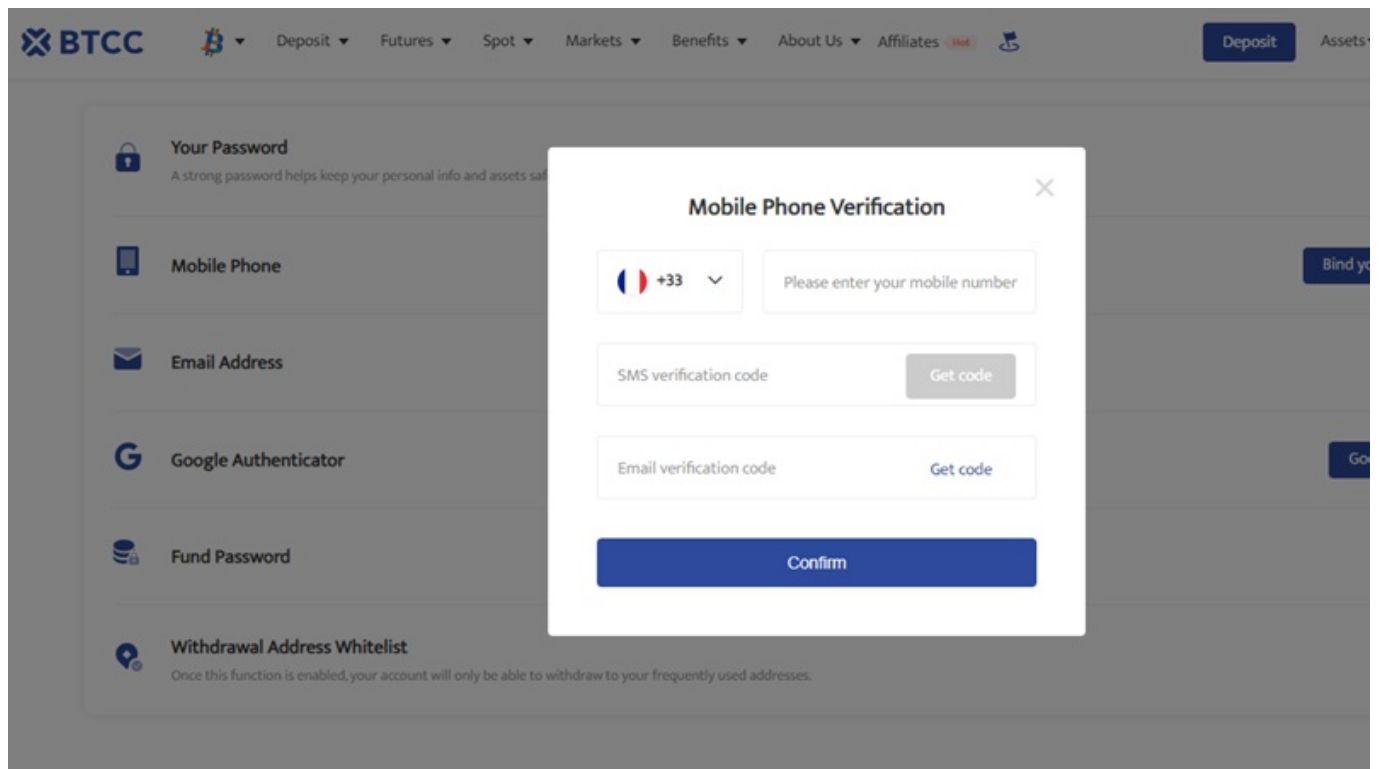

Not only will your account be verified, but your daily transaction limit will be increased, and you will be eligible for a variety of special offers (coupons/rebates) by uploading a photo of your document(s).

2.3 Secure Your Account

It is imperative to safeguard your account and prevent unauthorized transactions or access once it has been verified. You can simply activate two-factor authentication (2FA) in your account settings, which adds an additional layer of security.

Furthermore, it is crucial to employ a password that is both unique and complex, and it may be beneficial to employ a password manager. It is imperative to safeguard your investments by ensuring the security of your account.

2.2 Select Crypto Deposit

Here's a quick guide on how you can make deposits on our platform.

Step 1: Go to the the **Assets** page on our website. Tap **Deposit**

Step 2: Choose the cryptocurrency you want to deposit as well as the asset's preferred blockchain network. We used the Ethereum network (ERC20) as the underlying blockchain and USDT as the desired cryptocurrency in the sample below. Make a copy of the wallet address linked to your account, which is a random string of letters and numbers.

- 1.This is the USDT-TRC20 address. Please do not deposit cryptocurrency other than USDT-TRC20, otherwise, you may lose your assets.
- 2.The minimum top-up amount is 2USDT-TRC20. Any top-up amount smaller than this will not be credited and will not be refunded.
- 3.The transaction will have to be confirmed by the blockchain network nodes after the deposit is made to the address. Therefore, the deposit of [USDT-TRC20] may be affected by network congestion at times. Your patience is greatly appreciated.

Prior to starting the transfer, make sure you have chosen the appropriate network and assets.

Step 3: On the withdrawal page of the distinct cryptocurrency exchange or wallet that is holding the asset, enter the wallet address, amount, and underlying network. The many venues from which the cryptocurrency asset would be sent will be illustrated using Binance, another cryptocurrency exchange.

2.3 Convert

BTCC offers futures trading, which enables users to leverage up to 225x on over 300 USDT-margined and coin-margined perpetual contracts. Traders may generate profits by maintaining

either long or short positions.

If the user does not possess USDT, it will suggest that they exchange USDT at BTCC. This tool enables users to instantaneously convert over 200 distinct types of cryptocurrencies into USDT, enabling them to trade USDT-margined futures on the platform.

The BTCC Conversion Function is a beneficial addition to the toolkit of a merchant. This enables BTCC consumers to convert the crypto they possess into USDT in a matter of seconds. This eliminates the necessity for users to undergo the time-consuming process of transferring cryptocurrency from their wallet and subsequently converting it to USDT.

How to Withdraw on BTCC

Here's a basic step-by-step guide to withdrawing:

Step 1: Choose "Asset" by navigating to the upper right corner of your dashboard.

Step 2: Similar to the depositing process, choose the crypto asset and underlying network you want to utilise for the withdrawal. Then, before you submit your request, paste the wallet address and enter the withdrawal amount.

Step 3: Wait for the withdrawn assets to be delivered to the wallet address you specified. Depending on the blockchain, transaction confirmation might take anything from a few seconds to several minutes.

STEP 3: Start Trading

3.1 Choose the type of crypto futures

BTCC supports a range of cryptocurrency trading pairs. Select the trading pair you want to trade. For example, if you want to trade Bitcoin, you would choose the BTC/USDT trading pair.

By establishing a stop-loss, the trader indicates the lowest price that the traded asset or pair will reach before being automatically withdrawn to reduce losses. In contrast, the take-profit feature includes

setting a preset peak price for the asset before withdrawing it, so locking in profits for the trader.

Why Choose BTCC?

Founded in 2011, BTCC is among the world's oldest and most reliable bitcoin exchanges. Many traders use BTCC because it has established a solid reputation in the market for security and regulatory compliance over the years. The platform is especially well-suited for traders in North America and Europe, with presences in the US, Canada, and Europe.

In addition to bitcoin trading, BTCC provides traders with access to non-crypto assets including gold, silver, and U.S. equities through cutting-edge features like copy trading, perpetual futures, and tokenized stocks. Both novice and seasoned traders searching for a secure and regulated platform can benefit from BTCC's range of offerings.

The firm's products are designed to meet the needs and desires of both rookie and experienced

traders. Here are five reasons for using the exchange:

- Numerous transferable assets
- Excessive trading leverage
- Strong copy trading capabilities
- Perfect security record
- Interface that is easy to use
- Accessible to traders in the US and Canada

How to Trade Crypto on BTCC?

This brief instruction will assist you in registering for and trading on the BTCC exchange.

Step 1: Register an account

The first step is to hit the “Sign Up” button on the BTCC website or app. Your email address and a strong password are all you need. After completing that, look for a verification email in your inbox. To activate your account, click the link in the email.

Step 2: Finish the KYC

The Know Your Customer (KYC) procedure is the next step after your account is operational. The main goal of this stage is to maintain compliance and security. You must upload identification, such as a passport or driver's license. You'll receive a confirmation email as soon as your documents are validated, so don't worry—it's a quick process.

Step 3. Deposit Funds

After that, adding money to your account is simple. BTCC provides a range of payment options, such as credit cards and bank transfers. To get your money into your trading account, simply choose what works best for you, enter the amount, and then follow the instructions.

- **Fiat Deposit.** Buy USDT using Visa/Mastercard (KYC required).
- **Crypto Deposit.** Transfer crypto from another platform or wallet.

BTCC FAQs

Is BTCC safe?

Based on its track record since 2011, BTCC has established itself as a secure cryptocurrency exchange. There have been no reports of fraudulent activity involving user accounts or the platform's infrastructure. By enforcing mandatory know-your-customer (KYC) and anti-money

laundrying (AML) procedures, the cryptocurrency trading platform gives consumers greater security. For operations like withdrawals, it also provides extra security features like two-factor authentication (2FA).

Is KYC Necessary for BTCC?

Indeed. Before using BTCC goods, users must finish the Know Your Customer (KYC) process. A facial recognition scan and legitimate identification documents must be submitted for this process. Usually, it is finished in a few minutes. This procedure has the benefit of strengthening the security of the exchange and satisfying legal requirements.

Because their accounts will have a lower daily withdrawal limit, those who do not finish their KYC are unable to make deposits. It should be noted that those who present a legitimate ID without a facial recognition scan will likewise have restricted withdrawal options.

Is There a Mobile App for BTCC?

Indeed. For users of iOS and Android, BTCC has a mobile app. The exchange's website offers the mobile app for download. Since both the web version and the mobile app have the same features and capabilities, they are comparable.

Will I Have to Pay BTCC Trading Fees?

Indeed. BTCC levies a fee for trade, just like a lot of other centralised exchanges. Each user's VIP level, which is unlocked according to their available money, determines the different costs. The BTCC website provides information on the charge rates.

Can I Access BTCC From the U.S?

You can, indeed. According to its website, BTCC has obtained a crypto license from the US Financial Crimes Enforcement Network (FinCEN), which enables the cryptocurrency exchange to provide its services to investors who are headquartered in the US.

According to BTCC's User Agreement document, its goods are not allowed to be used in nations and organisations that have been sanctioned by the United States or other nations where it has a licence.
