How to Buy dogwifhat (WIF) on BTCC?

WIF USDT-margined perpetual futures contracts with a leverage of up to 50x are available on BTCC platform. You can buy WIF anytime on BTCC at the lowest price and highest security.

The following sets forth the guidance for buying WIF on cryptocurrency exchange BTCC:

Step One: go to the [BTCC homepage](#) and log in to your BTCC account. If you do not have an account, you need to register first.

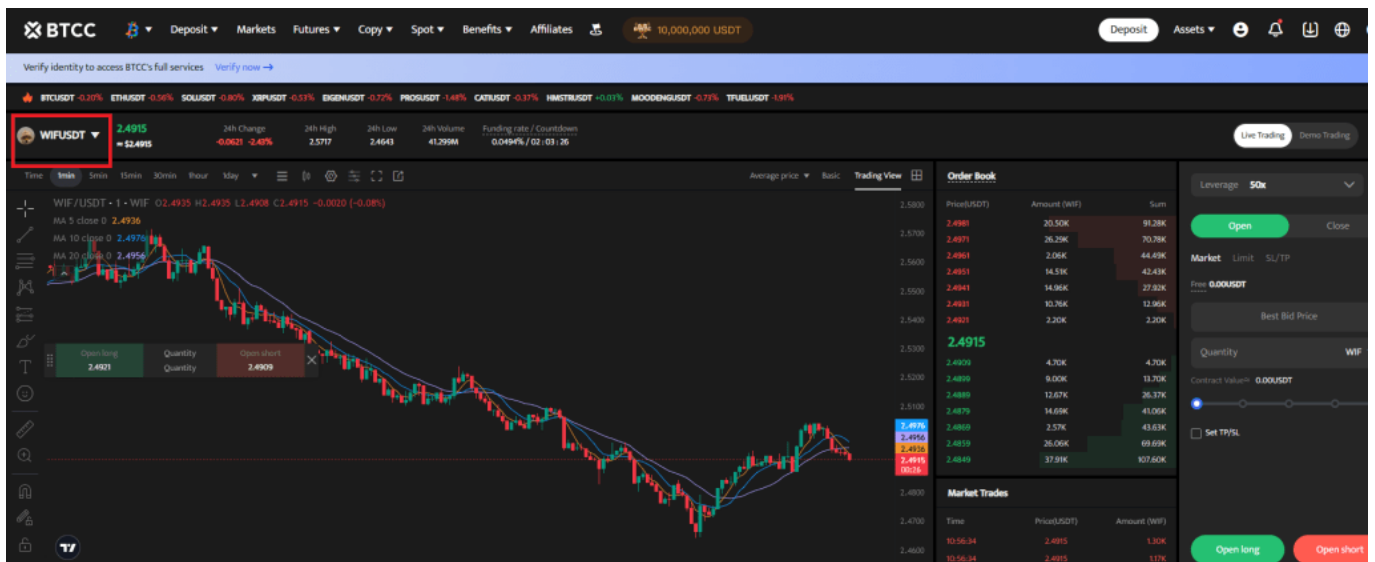

The screenshot shows the BTCC website interface. At the top, there is a navigation bar with the BTCC logo, a Bitcoin icon, and various menu items: Deposit, Markets, Futures, Copy, Spot, Benefits, and Affiliates. A user's balance of 10,000,000 USDT is displayed in the top right corner. Below the navigation bar, a blue banner prompts users to "Verify identity to access BTCC's full services" with a "Verify now" link. The main content area features a dark background with a large white text overlay that reads "Claim your new user rewards! Limited time only." Below this text, it says "Deposit and trade to earn up to 10,025 USDT!" and includes a "Learn more" button with a right-pointing arrow. To the right of the text is a circular graphic containing a blue gift box with a yellow ribbon and a gold coin, surrounded by small yellow stars.

Step Two: on the BTCC official homepage, choose “Deposit”, and then fund your account through your preferred methods (fiat deposit, crypto deposit or convert).

Step Three: go back to the BTCC official homepage, choose “Futures” - “USDT-M Perpetual Futures Contract”, and find WIF/USD trading pair.

You can also directly click the button below to enter the WIF order page.

Step Four: choose the contract trading order type. Futures contract orders on BTCC platform include market orders, limit orders and SL/TP orders.

- **Market Order:** users place orders at the best price in the current market to achieve fast trading.
- **Limit Order:** Limit orders are a type of order to buy or sell futures at a price more favourable than the market price. When you buy at a price lower than the market price or sell at a price higher than the market price, the order will be in the form of a limit order.
- **SL/TP Order:** SL/TP orders are a type of order to buy or sell futures at a price less favourable than the market price. When you buy at a price higher than the market price or sell at a price lower than the market price, the order will be in the form of a SL/TP order.

Step Five: adjust the leverage multiple.

Please keep in mind that operating leverage carries the risk of liquidation. Leverage should be adjusted based on your financial status and risk tolerance.

Step Six: choose the lot size and set the SL/TP price .

Step Seven: after setting the basic data information, users can choose to buy (open long) or sell (open short) after entering their ideal price. Traders should remind that the price cannot be higher or lower than the highest buying price or lowest selling price of the platform.

Step Eight: click the buy or sell button, and the WIF crypto futures contract order is completed.
