Understand the Basics of Crypto Trading

Before diving into money-making strategies, it's essential to understand what crypto trading involves.

Crypto trading is the act of buying and selling cryptocurrencies like Bitcoin, Ethereum, or Solana to make a profit from market movements. There are different trading styles:

- Day Trading – Short-term positions held for minutes or hours
- Swing Trading – Medium-term positions held for days or weeks
- Scalping – High-frequency, rapid trades with small profits

- Position Trading - Long-term holding with strategic entry points

How to Make Money Trading Crypto with Little Money

Many new traders believe you need thousands of dollars to start. That's false.

You can begin trading with as little as \$10 thanks to fractional crypto investing on platforms like Binance, Bybit, and Coinbase.

Beginner-friendly tactics include:

- Start with spot trading (avoid leverage early)
- Focus on low-volatility coins to reduce risk
- Trade in USDT or stablecoin pairs for easier tracking
- Use free demo accounts or paper trading apps to practice

Best Way to Make Money With Crypto Trading

There's no "one-size-fits-all" strategy, but these proven methods work for most beginners:

a. Trend Following

Identify trends using indicators like Moving Averages or MACD. Ride the trend until it shows signs of reversal.

b. Breakout Trading

Buy when price breaks resistance or short when it breaks support.

c. News-Based Trading

Trade major news events—such as ETF approvals or government regulation updates—for high volatility opportunities.

d. Dollar-Cost Averaging (DCA)

If you're not ready for day trading, invest fixed amounts periodically into selected coins.

How to Make Money Trading Crypto Daily

Making daily profits is possible—but only with the right plan.

Steps to Follow:

- Trade during high-volume hours (like U.S. market opening)
- Use technical indicators like RSI, Bollinger Bands, and Fibonacci levels
- Always set stop-losses and take-profits
- Limit trades to 1-3 per day to avoid emotional decisions
- Keep a trading journal to review wins/losses weekly

Many daily traders start with just \$100-\$300 and scale up once they build confidence.

Managing Risk Is the Key to Profit

No matter your strategy, risk management separates winners from losers.

Rules for Risk Management:

- Never risk more than 1-2% of your portfolio per trade
- Avoid overleveraging in futures
- Diversify across 3-5 coins, not 20
- Use trailing stop-losses to secure profit during trends

- Start small and scale as you learn
- Study charts and learn 1-2 indicators well

- Learn from YouTube, blogs, and courses
- Don't copy influencers—build your own system

Advanced Tip: Combine Trading with Affiliate Income

BTCC FAQs

Is BTCC safe?

Based on its track record since 2011, BTCC has established itself as a secure cryptocurrency exchange. There have been no reports of fraudulent activity involving user accounts or the platform's infrastructure. By enforcing mandatory know-your-customer (KYC) and anti-money laundering (AML) procedures, the cryptocurrency trading platform gives consumers greater security. For operations like withdrawals, it also provides extra security features like two-factor authentication (2FA).

Is KYC Necessary for BTCC?

Indeed. Before using BTCC goods, users must finish the Know Your Customer (KYC) process. A facial recognition scan and legitimate identification documents must be submitted for this process. Usually, it is finished in a few minutes. This procedure has the benefit of strengthening the security of the exchange and satisfying legal requirements.

Because their accounts will have a lower daily withdrawal limit, those who do not finish their KYC are unable to make deposits. It should be noted that those who present a legitimate ID without a facial recognition scan will likewise have restricted withdrawal options.

Is There a Mobile App for BTCC?

Indeed. For users of iOS and Android, BTCC has a mobile app. The exchange's website offers the mobile app for download. Since both the web version and the mobile app have the same features and capabilities, they are comparable.

Will I Have to Pay BTCC Trading Fees?

Indeed. BTCC levies a fee for trade, just like a lot of other centralised exchanges. Each user's VIP level, which is unlocked according to their available money, determines the different costs. The BTCC website provides information on the charge rates.

Can I Access BTCC From the U.S?

You can, indeed. According to its website, BTCC has obtained a crypto license from the US Financial Crimes Enforcement Network (FinCEN), which enables the cryptocurrency exchange to provide its services to investors who are headquartered in the US.

According to BTCC's User Agreement document, its goods are not allowed to be used in nations and organisations that have been sanctioned by the United States or other nations where it has a licence.
