### How to Trade Crypto Futures Contracts on BTCC

**BTCC** is one of the oldest / most established cryptocurrency exchanges, supporting some of the most prominent cryptocurrencies on the market, including Bitcoin, Litecoin, and Ethereum. The exchange has comparatively minimal trading fees for its users.

**Trading futures** is BTCC's highlight feature. It stands out for the wide range of futures contracts available, including options for expiry periods (quarterly, annual, etc.) and leverage (up to 500x), allowing users to tailor their trading strategies to their market expectations, investment goals, and risk tolerance.

Unlike spot trading, it allows users to speculate on the future price movements of cryptocurrencies without actually possessing them, as in a crypto wallet. This style of trading allows for both long and short positions, giving you the ability to profit from both market uptrends and downtrends.

# 1.What is BTCC?

---

[BTCC](#) was founded in June 2011 with the goal of making crypto trading reliable and accessible to everyone.

We also have crypto licenses in the United States, Canada, and Europe. Through the ups and downs of numerous market cycles, BTCC has supplied safe trading services with cutting-edge technology for the past 11 years. As the world's oldest crypto exchange, BTCC has always placed a great emphasis on enhancing every area of trade, seeking to establish a fair trading environment for all crypto enthusiasts worldwide.

## BTCC Core Values

The exchange has attracted over 2 million users from around the world as a result of the extensive range of services it provides, which is a direct result of the compliance and trust of its users. The trading of futures contracts on a wide range of cryptocurrencies with up to 500x leverage, as well as spot trading on a few tokens, is the most prominent of these services.

The precise number of cryptos listed fluctuates as BTCC consistently endeavors to update its selection to encompass both established and emergent digital currencies, thereby adapting to the ever-evolving dynamics of the cryptocurrency market.

Additionally, the platform has distinguished itself by its user-friendly interface, which ensures that it is accessible to all, irrespective of their level of cryptocurrency expertise. Its reputation as one of the most widely used and respected cryptocurrency exchange platforms globally has been solidified by its capacity to adapt and innovate rapidly.

## 2.How to Register an Account on BTCC?

---

### 2.1 Open an Account

To get started, visit the official BTCC website. The “Register” option is located at the top right corner of the page, as shown in the image below. Click on it to begin the registration procedure. This basic step lays the groundwork for your cryptocurrency trading adventure on BTCC.

The image shows a screenshot of the BTCC website. On the left, there is a dark blue promotional banner. The top part of the banner says "Limited time only: Claim your 10055USDT welcome reward" with a countdown timer showing 12h : 48m : 24s. Below this, it says "0 security incidents since 2011 Safest futures exchange in the world". At the bottom of the banner, it lists "225X Leverage", "200+ Cryptocurrencies", "0.045% Max. fee", and "0.01% Min. fee". There is also a button that says "Upgrade to VIP for amazing privileges!". On the right, there is a white registration form titled "Create Account". Below the title, it says "Registration takes only 30 seconds". There are two tabs: "Email" (selected) and "Mobile". The form has two input fields: "Email address" and "Create a password" (with a strength indicator). Below these is a "Referral code (optional)" field with a dropdown arrow. At the bottom of the form is a blue button that says "Register now". Below the button, it says "Or register via" and there are four social media icons: Google, Facebook, Apple, and a cat icon. At the very bottom, there is a small text line: "By creating an account, I agree to BTCC's Privacy Policy and User Agreement."

## **2.2 Verify Your Identity**

In order to comply with KYC/AML regulations, licensed crypto exchanges such as BTCC are required to identify all registered users. To accomplish this, you will require a government-issued identification document, such as a national ID, passport, or driving license.

Not only will your account be verified, but your daily transaction limit will be increased, and you will be eligible for a variety of special offers (coupons/rebates) by uploading a photo of your document(s).

## Identity document verification tips

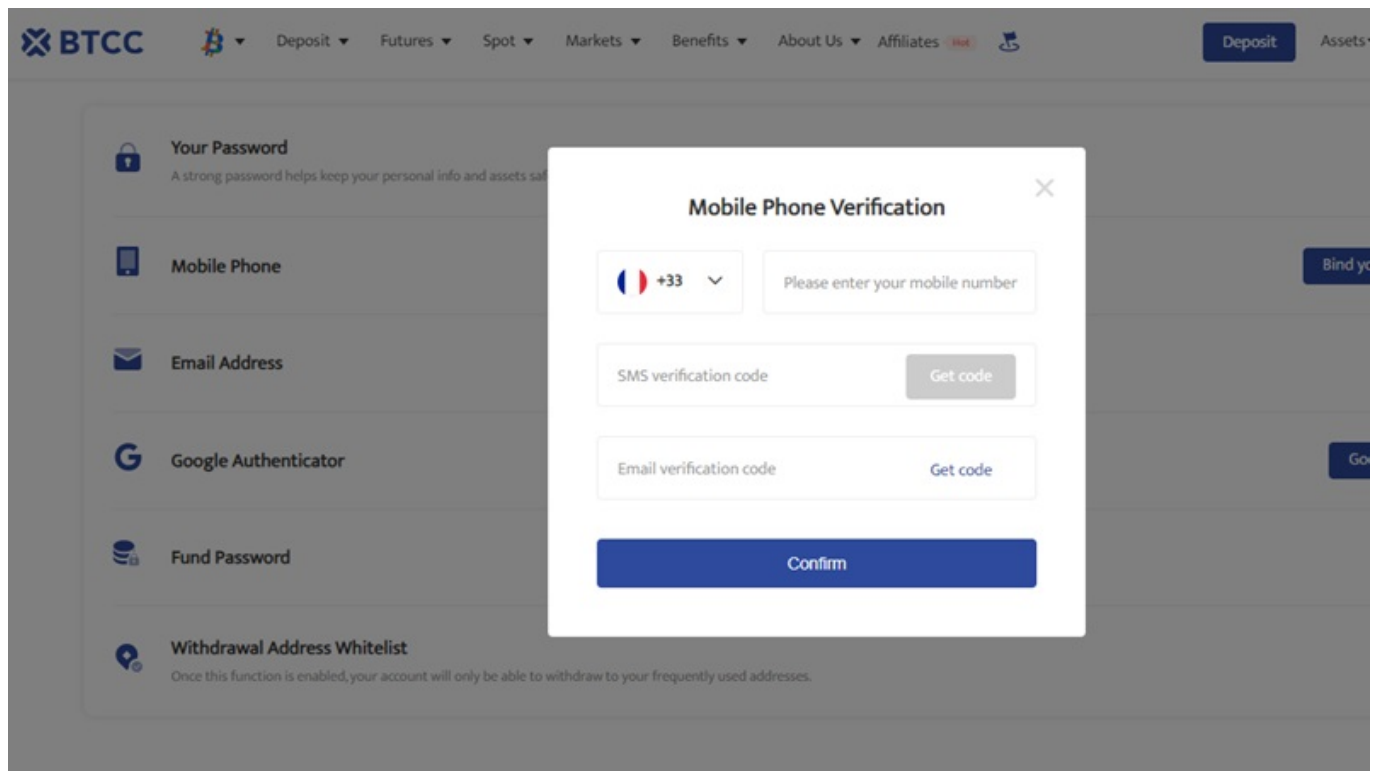

- ✓ Photo of your ID is uncropped
- ✓ All details are clearly readable
- ✓ Government-issued and not expired
- ✓ Photo of the original ID

### 3.3 Convert

BTCC offers futures trading, which enables users to leverage up to 500x on over 300 USDT-margined and coin-margined perpetual contracts. Traders may generate profits by maintaining either long or short positions.

If the user does not possess USDT, it will suggest that they exchange USDT at BTCC. This tool enables users to instantaneously convert over 200 distinct types of cryptocurrencies into USDT, enabling them to trade USDT-margined futures on the platform.

The BTCC Conversion Function is a beneficial addition to the toolkit of a merchant. This enables BTCC consumers to convert the crypto they possess into USDT in a matter of seconds. This eliminates the necessity for users to undergo the time-consuming process of transferring cryptocurrency from their wallet and subsequently converting it to USDT.

## 4.How to Trade Crypto Futures Contract on BTCC

---

The BTCC exchange offers two types of trading: spot trading and futures trading. Spot trading entails purchasing or selling a cryptocurrency at its current market value. Futures trading, on the other hand, is a sort of derivatives trading in which traders speculate on the future price of a cryptocurrency asset. Futures trading allows users to speculate on a coin's worth without holding it.

This article will go into detail on BTCC's futures trading. The exchange's futures trading market includes over 300 assets, allowing traders to trade digital assets like Bitcoin with up to 500x leverage. In addition, the platform provides tokenized futures, such as gold, silver, and US stocks, giving users a variety of trading opportunities.

To access the BTCC futures trading functionality, customers must first register, verify, secure, and fund their accounts. The next step is to begin trading. Here, we shall concentrate on BTC trading. The following is an overview of how to trade futures on BTCC:

### 4.1 Choose the type of crypto futures

As previously mentioned, the exchange provides more than 300 cryptocurrencies and trading pairs. We'll use the BTC/USDT trading pair for this guide, as it appears in the following image:

## 7. Is BTCC Safe?

---

We reduce the risk of asset loss for its users and create a safer trading environment for them through the following security measures.

### 1. Legal and Regulatory Licenses

BTCC has obtained MSB regulatory licenses in the U.S. Canada, Europe respectively.

- Crypto licence issued by the Financial Crimes Enforcement Network (FinCEN) in the USA (license registration number 31000168143239)
- Crypto licence issued by the Financial Transactions and Reports Analysis Centre of Canada (FINTRAC) (license registration number M20713346).
- Crypto licence issued by the Registrar of Legal Entities of Lithuania (License No. 305950582)

### 2. Anti-Money Laundering (AML)

The BTCC has also adopted the Anti-Money Laundering (AML) regulation to prevent money laundering and combat the financing of terrorism.

### 3. KYC Identity Verification

Additionally, BTCC is dedicated to preventing money laundering and making sure that identity authentication is done correctly. Strict Know Your Customer (KYC) procedures are in place to confirm users' identity. This prevents fraud in addition to making the community safer. The following are some KYC benefits and limitations:

| Benefits and Limits                                     | Unverified Users  | Identity Document Verified  | Facial Verification Completed   |
|---|---|---|---|
| Fiat deposit limit (Crypto purchase)                    |  | Maximum 2,000 USDT cumulatively   | No limit  |

| Eligible to join campaigns to earn more bonuses/rebates |  |  |  |

#### 4.Cold Wallet

BTCC uses a multi-signature cold wallet to hold customer assets. This is a fancy way of expressing that your cryptocurrency is secured by numerous private keys and is kept offline. Additionally, because BTCC has a 1:1 PoR storage policy, all user assets are properly backed up. Additionally, BTCC does not use tokens as collateral for loans, which provides an additional degree of protection against the dangers involved in lending and borrowing.

#### 5.2FA Dual Authentication

Login with Google/SMS/Email 2FA dual authentication.

To withdraw from BTCC, you also need 2FA dual authentication to add a withdrawal address.

By adapting to the changing tides of the cryptocurrency market, BTCC has maintained its position as one of the oldest cryptocurrency exchange platforms in the world. Given the company's track record over the past decade, I would suggest them to anyone who is satisfied with the cryptocurrency and trading pair options they offer and is in a place where they are accessible.

## Why Choose BTCC?

---

BTCC is known as the world's longest-running exchange. Since its establishment, the platform has withstood multiple bull and downturn markets without reporting a single hacking incident, making it one of the most trusted exchanges in existence.

The firm's products are designed to meet the needs and desires of both rookie and experienced traders. Here are five reasons for using the exchange:

- **Available Cryptocurrencies on the Exchange**

As a leading cryptocurrency exchange, BTCC's platform supports over 300 cryptocurrencies, allowing investors to diversify their digital portfolios and explore numerous investment opportunities in the digital currency market. The site also provides access to newer but equally intriguing

alternatives, including Litecoin (LTC) and Ripple (XRP).

The number of trading coins is projected to increase as BTCC is committed to innovation and adopting new yet promising digital currencies in order to reach a wider spectrum of traders.

- **Easy to use**

When choosing a decent cryptocurrency exchange, simplicity of use is an important thing to consider. The BTCC app has an intuitive and user-friendly layout that is appropriate for both new and experienced traders, making trading on the platform simple and efficient. It contains features like as price alerts and real-time market data, which improve the trading experience. The program also includes security features like two-factor authentication and cold storage for cash.

The site includes a competent charting system that displays information such as a cryptocurrency's 24-hour price movement, 24-hour low/high, and daily volume. These features make it simple to use and available to the great majority.

- **Reputable Customer Service**

BTCC has a good reputation in terms of customer service. The exchange offers users service via live chat and email on its website. It has official accounts on several social media platforms, including X (previously Twitter), LinkedIn, Instagram, YouTube, and Facebook. The website also has a part with blogs, news, and support centres for users who require assistance.

When users encounter problems or have complaints while using the cryptocurrency exchange, they can receive prompt customer service via email and live chat. BTCC provides 24/7 online customer care.

- **BTCC Trading Features and Tools**

BTCC offers a wide range of trading services, including spot trading, futures trading, and margin trading. It offers high leverage choices for many trading pairs, making it suited for a wide range of traders.

- **Welcome Bonus and Campaigns**

BTCC currently provides several campaigns. Investors can join in these campaigns and earn interesting prizes. For example, new users can earn rewards up to 10,055 USDT by completing relevant missions such as registration, identity verification, making first deposits, and cumulative futures trading volume. Existing users can earn up to 1,255 USDT per referral when they invite their

friends to join BTCC.

## BTCC FAQs

---

### Is BTCC safe?

Based on its track record since 2011, BTCC has established itself as a secure cryptocurrency exchange. There have been no reports of fraudulent activity involving user accounts or the platform's infrastructure. By enforcing mandatory know-your-customer (KYC) and anti-money laundering (AML) procedures, the cryptocurrency trading platform gives consumers greater security. For operations like withdrawals, it also provides extra security features like two-factor authentication (2FA).

### Is KYC Necessary for BTCC?

Indeed. Before using BTCC goods, users must finish the Know Your Customer (KYC) process. A facial recognition scan and legitimate identification documents must be submitted for this process. Usually, it is finished in a few minutes. This procedure has the benefit of strengthening the security of the exchange and satisfying legal requirements.

Because their accounts will have a lower daily withdrawal limit, those who do not finish their KYC are unable to make deposits. It should be noted that those who present a legitimate ID without a facial recognition scan will likewise have restricted withdrawal options.

### Is There a Mobile App for BTCC?

Indeed. For users of iOS and Android, BTCC has a mobile app. The exchange's website offers the mobile app for download. Since both the web version and the mobile app have the same features and capabilities, they are comparable.

## **Will I Have to Pay BTCC Trading Fees?**

Indeed. BTCC levies a fee for trade, just like a lot of other centralised exchanges. Each user's VIP level, which is unlocked according to their available money, determines the different costs. The BTCC website provides information on the charge rates.

## **Can I Access BTCC From the U.S.?**

You can, indeed. According to its website, BTCC has obtained a crypto license from the US Financial Crimes Enforcement Network (FinCEN), which enables the cryptocurrency exchange to provide its services to investors who are headquartered in the US.

According to BTCC's User Agreement document, its goods are not allowed to be used in nations and organisations that have been sanctioned by the United States or other nations where it has a licence.
