Intel Stock (INTC) Price Prediction 2024,2025,2030 — Is INTC a Good Investment?

As our economy becomes more and more digitalized, [Intel stock \(INTC\)](#) looks like it should be a winner, seizing the upside of artificial intelligence along with a larger proliferation of advanced computing requirements

.

However, that isn't entirely true. Investor attention has been drawn to Intel stock due to poor operational choices and financial mismanagement, but not for the intended reasons.

Intel's stock price is falling despite a per-share increase in the latter part of last year, and analysts predict little growth going forward.

We look at the logic behind analysts' INTC projections as well as the precise price forecasts for 2024, 2025, and beyond in our Intel stock forecast.

[TRADE_PLUGIN]TSLAUSDT,NVDAUSDT[/TRADE_PLUGIN]

Key Takeaways

- In addition to disappointing performance, Intel's most recent earnings release also revealed a

dismal forecast for the upcoming reporting period.

- With more innovative companies emerging, Intel is perceived as a bygone era chip manufacturer.
- The business is taking proactive measures to safeguard international supply networks, which may be advantageous.
- The majority of analysts are pessimistic, predicting little upside from the current price per share.
- The majority of “best case” scenarios suggest that Intel’s price won’t likely decline much more, which isn’t a great recommendation.

About Intel Corporation

The American multinational technology firm Intel Corporation is famous for producing the majority of the world’s microprocessors for use in personal computers. The likes of Acer, Dell, HP, and Lenovo, among others, rely on the company’s microprocessors. Most personal computers today use a microprocessor from Intel’s x86 family.

Although Intel is best known for its microprocessors, it also produces many other computing and communications-related items. Chipsets for motherboards, ICs, network interface controllers, embedded processors, graphics chips, CPUs, and SoCs are all examples of such items. A few more are vehicle automation, Wi-Fi and Bluetooth chipsets, modems, mobile phones, central processing units, flash memory, and cars.

On July 18, 1968, Gordon Moore and Robert Noyce established Intel Corporation. They were both early innovators in the field of semiconductors. Intel is often credited as a key player in Silicon Valley’s meteoric rise. The business developed the first commercial microprocessor chip in 1971 and has maintained its position as a frontrunner ever since.

Intel is a trusted brand because of the reliability of its hardware. It has strong leadership and is constantly at the forefront of technological advancement. Intel has a reputation for using aggressive and even anti-competitive methods of advertising. It has consistently defended its market share and appears to be well-positioned to take advantage of emerging technologies.

Intel (INTC) Stock Price Prediction 2024

Success in 2024 might pave the way for continued success in the following year. We anticipate that Intel's well-known marketing efforts will continue to pay off for the company in the form of increased profits and a larger share of relevant markets.

If we fast-forward to 2024, our price research predicts that Intel stock will open at \$75.97 and close at \$82.85. It is anticipated that the lowest price for INTC will be \$71.37, with a high of \$84.50.

[TRADE_PLUGIN]TSLAUSDT,NVDAUSDT[/TRADE_PLUGIN]

Intel (INTC) Stock Price Prediction 2025

Intel is the leading producer of commercial microprocessors, as was indicated earlier. It continues to dominate the market, delivering microprocessors and other devices to companies that make computer systems. Expectations for continued market domination until 2025 could have a material effect on the stock price.

According to our Intel stock price predictions for 2025, INTC is expected to have a day-to-day range of \$83.00-\$86.85. In addition, it is anticipated that the stock will sell for a minimum of \$78.23 per share in 2025, with a potential high of around \$95.48 per share.

[TRADE_PLUGIN]TSLAUSDT,NVDAUSDT[/TRADE_PLUGIN]

Intel (INTC) Stock Price Prediction 2030

This article about the future of Intel stock prices only goes as far as 2030. We think that eight years is plenty of time for Intel to continue making progress forward. There is no doubt that in eight years

the company will have expanded greatly, and that the stock price will have increased accordingly.

In 2030, we anticipate that INTC will open at \$127.50 and close at \$137.96, based on our historical data. In 2030, analysts predict that the stock will sell for at least \$115.74 per share and may fetch as much as \$139.85.

Is Intel Stock (INTC) a Good Investment?

The historical performance of Intel (INTC) stock justifies an investment. Despite the stock's history of declines, it has shown remarkable improvement over the years. Early shareholders who stuck with the company through thick and thin no doubt saw substantial returns on their investment.

Our forecast for Intel's share price indicates there are compelling arguments in favor of purchasing the company's stock. According to our projections, INTC's share price will rise during the next few years. If you invest while the price is still reasonable, you will increase your future returns.

Before we move on, it's vital to note that trading equities isn't without its risks. For example, Intel stock (INTC) exhibits the same degree of volatility as the rest of the market. In the next days/months/years, the price will continue to fluctuate up and down. You run the risk of losing some or all of your investment if you trade INTC, but the potential rewards much outweigh the dangers.

[TRADE_PLUGIN]TSLAUSDT,NVDAUSDT[/TRADE_PLUGIN]

FAQs

Will Intel's stock rise?

The price of INTC will rise over the next few years, as predicted by our models. The highest price target for the stock in 2019 is \$67.34. Intel stock is expected to reach a high of \$92.34 in the next five years and a high of \$139.87 in the next decade and a half.

Will INTC hit \$100?

It is possible for Intel stock (INTC) to reach \$100. In fact, analysts anticipate that the share price will hit \$100 by 2026. It's possible it may get there sooner, but this is the most likely scenario.

Will Intel's stock hit \$1000?

It's not out of the question that INTC's price will eventually hit \$1,000. However, we don't see this happening any time soon. Even though it could take decades, the stock price has the potential to reach that level.
