### What Is Pi Network?

Pi Network is a mobile-first cryptocurrency project that allows users to mine Pi coins through their

smartphones without draining battery life or requiring high-end hardware.

#### **Key Highlights:**

- •Over 47 million engaged users worldwide
- •Developed by Stanford PhDs
- •Still in Enclosed Mainnet phase
- Focused on building utility and decentralization before open launch

# Pi Network News Today: July 2025 Updates

### **Mainnet Progress**

As of July 2025, Pi Network is still in its Enclosed Mainnet phase, meaning:

- •Transfers are only allowed within the Pi ecosystem
- Pi coins cannot be traded on external exchanges
- Full open mainnet is expected before Q4 2025, according to the core team

### **KYC Verification Process in 2025**

The Know Your Customer (KYC) process is crucial to Pi Network's transition to mainnet. Without passing KYC, users cannot migrate mined Pi to the mainnet wallet.

#### **Latest KYC Facts:**

- •The KYC rollout now supports over 90% of active users
- Users are encouraged to check the app for KYC invitations
- •Third-party verification methods using government ID and facial recognition are still used

# When Will Pi Coin Launch Officially?

According to the official roadmap, the open mainnet is anticipated by late 2025, depending on:

- Ecosystem development
- Sufficient KYC completion
- •Pi app utility integrations

Until then, Pi remains in pre-launch status with no external trading allowed.

### **Pi Coin Price Prediction 2025**

One of the most popular topics in Pi Network news is: What will Pi be worth?

#### **Realistic Price Scenarios:**

Scenario Price Range

Low adoption \$0.10 - \$1.00

Moderate adoption \$5 - \$10

High utility & exchange listings \$20 - \$100+

Disclaimer: Pi Network has not launched on any exchange officially. All prices are speculative.

Trade on BTCC Now

### Can You Withdraw Pi Coins?

Currently, you cannot withdraw Pi coins to external wallets or exchanges.

However:

- •Users who passed KYC and migrated to mainnet can use Pi inside the Pi ecosystem (Pi apps, marketplaces, etc.)
- •Withdrawals to exchanges will only be enabled after open mainnet launch

### Is Pi Network Real or Fake?

Pi Network has faced scrutiny and skepticism from critics. So, is it a scam or a legitimate crypto project?

Facts That Support Legitimacy:

- •Developed by a team of Stanford PhDs
- Active development and community engagement
- ·Clear roadmap and regular updates
- •No money required to mine

But:

- Lack of exchange listings
- •Delayed launch timeline
- Heavy reliance on user patience

# Pi Network Ecosystem: What's New in 2025?

The Pi ecosystem continues to expand with new apps and utilities:

- •Pi Browser: for decentralized apps
- •Pi Chat: in-app messaging platform
- •Pi marketplaces: peer-to-peer services and products
- •Pi Pay: internal payment method using Pi

# Top 5 Things to Watch in Pi Network News (2025)

- 1. Open Mainnet Launch (Expected Q4 2025)
- 2.Full KYC Rollout for Remaining Users
- 3. Partnership Announcements or Exchange Listings
- 4. New Pi-based Applications Launching in Ecosystem
- 5. Updated Whitepaper or Roadmap from Core Team

### Pi Network Alternatives in 2025

If you're looking for similar mobile mining platforms, consider:

- •Bee Network Similar mining app with gamification
- •TimeStope Time-based mining concept
- Eagle Network Early-stage Pi alternative

### Conclusiom: Should You Still Care About Pi Network?

Despite launch delays, Pi Network continues to build a loyal base of users who believe in its long-

term value. The Pi Core Team's emphasis on real-world utility and gradual decentralization sets it apart from many other failed crypto apps.

If you're already mining, stay active, complete KYC, and prepare for the eventual mainnet launch. If you're new, it's still not too late to join and start earning.

### **FAQs**

#### Is Pi coin listed on exchanges?

No, Pi is not officially listed on any exchange yet.

#### How much is 1 Pi worth now?

There is no official value—any circulating price is speculative and unofficial.

#### Can I transfer Pi to Binance?

Not yet. Pi is still in enclosed mainnet phase and not supported by Binance.

#### Is Pi Network mining still open in 2025?

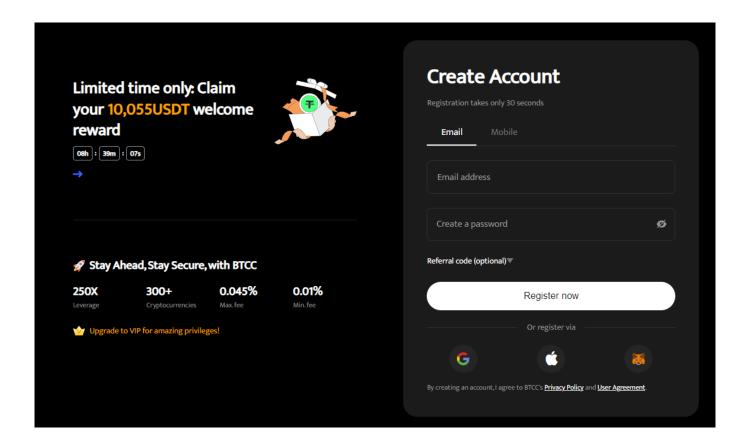

Yes, mobile mining is still active, though base rates are much lower.

# **How to Trade Crypto on BTCC?**

This brief instruction will assist you in registering for and trading on the BTCC exchange.

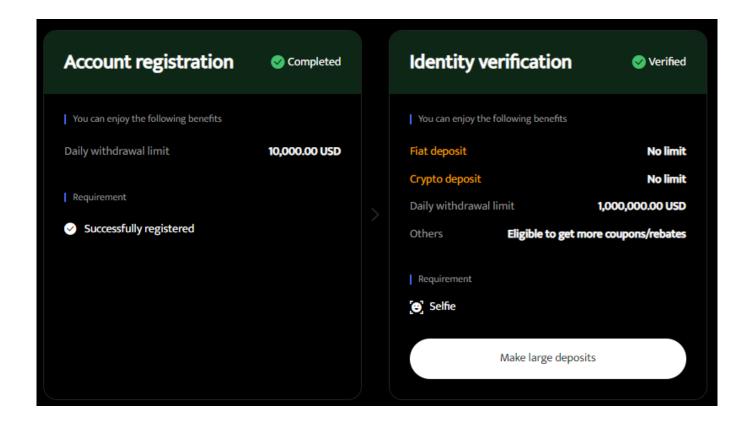

### Step 1: Register an account

The first step is to hit the "Sign Up" button on the BTCC website or app. Your email address and a strong password are all you need. After completing that, look for a verification email in your inbox. To activate your account, click the link in the email.

### **Step 2: Finish the KYC**

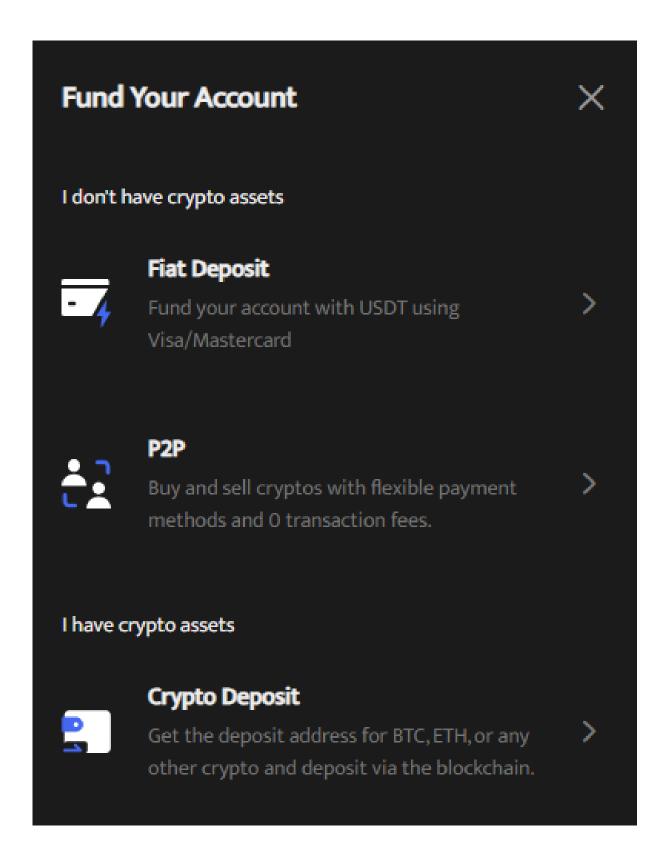

The Know Your Customer (KYC) procedure is the next step after your account is operational. The main goal of this stage is to maintain compliance and security. You must upload identification, such as a passport or driver's license. You'll receive a confirmation email as soon as your documents are validated, so don't worry—it's a quick process.

# Step 3. Deposit Funds

After that, adding money to your account is simple. BTCC provides a range of payment options, such as credit cards and bank transfers. To get your money into your trading account, simply choose what works best for you, enter the amount, and then follow the instructions.

- Fiat Deposit. Buy USDT using Visa/Mastercard (KYC required).
- **Crypto Deposit.** Transfer crypto from another platform or wallet.

# **Step 4. Start Trading**

If you wish to follow profitable traders, you might go for copy trading, futures, or spot trading. After choosing your order type and the cryptocurrency you wish to trade, press the buy or sell button. Managing your portfolio and keeping track of your trades is made simple by the user-friendly interface.

# **BTCC FAQs**

#### Is BTCC safe?

Based on its track record since 2011, BTCC has established itself as a secure cryptocurrency exchange. There have been no reports of fraudulent activity involving user accounts or the platform's infrastructure. By enforcing mandatory know-your-customer (KYC) and anti-money laundering (AML) procedures, the cryptocurrency trading platform gives consumers greater security. For operations like withdrawals, it also provides extra security features like two-factor authentication (2FA).

#### Is KYC Necessary for BTCC?

Indeed. Before using BTCC goods, users must finish the Know Your Customer (KYC) process. A facial recognition scan and legitimate identification documents must be submitted for this process. Usually, it is finished in a few minutes. This procedure has the benefit of strengthening the security of the exchange and satisfying legal requirements.

Because their accounts will have a lower daily withdrawal limit, those who do not finish their KYC are unable to make deposits. It should be noted that those who present a legitimate ID without a facial recognition scan will likewise have restricted withdrawal options.

#### Is There a Mobile App for BTCC?

Indeed. For users of iOS and Android, BTCC has a mobile app. The exchange's website offers the mobile app for download. Since both the web version and the mobile app have the same features and capabilities, they are comparable.

#### Will I Have to Pay BTCC Trading Fees?

Indeed. BTCC levies a fee for trade, just like a lot of other centralised exchanges. Each user's VIP level, which is unlocked according to their available money, determines the different costs. The BTCC website provides information on the charge rates.

#### Can I Access BTCC From the U.S?

You can, indeed. According to its website, BTCC has obtained a crypto license from the US Financial Crimes Enforcement Network (FinCEN), which enables the cryptocurrency exchange to provide its services to investors who are headquartered in the US.

According to BTCC's User Agreement document, its goods are not allowed to be used in nations and organisations that have been sanctioned by the United States or other nations where it has a licence.
