What is Tamadoge?

Tamadoge is a Play-to-Earn (P2E) cryptocurrency initiative that uses augmented reality with NFT-powered animals.

There are multiple elements within Tamadoge:

- Tamaverse where Tamadoge tokens and Tamadoge NFTs have a market
- Tamadoge Tokens
- Tamadoge NFTs

Tamaverse is yet to be launched. However, an Arcade game was recently launched. Tamadoge will help users mint, breed, and battle their own Tamadoge pets in the metaverse. Additionally, TAMA can be used to mint NFTs in the Tamaverse. Tamadoge Tokens and NFTs are available for trade.

The Tamadoge platform lets users develop, breed, and trade virtual dogs known as Tamadoge pets on their metaverse platform, Tamaverse. These dogs can be used to challenge other players on the platform. A Tamadoge pet will be minted as an NFT via smart contract functionality. In order to gain rank in the leaderboard, a player provides food, toys, and cosmetics for each 3D animated pet which helps the user NFT grow steadily.

TAMA is used to purchase 3D assets like food, toys, cosmetics, etc. from the Tamadoge platform. These items distinguish every Tamadoge pet from the others. Tamadoge revenue is generated from fees paid on transactions in the Tamadoge NFT Petstore. Users and players buy food, clothes, and other necessities and discretionary items for their pets in the store. You

A user can own as many pets as they like on the platform, and each pet will have unique traits constituted as an NFT.

What is Tamadoge's Advantages?

Utility of Tama Tokens

Many crypto investors and long-time market participants agree on the fact that the utility of tokens often decides the future of any crypto project. TAMA tokens play is to facilitate all transactions happening in the Tamaverse. Buying Tamadoge also requires TAMA, and a percentage of it is split between marketing and in-game rewards as well.

Carefully created smart tokenomics

The total supply of TAMA tokens is limited and it is set at 2 billion, and around 1 billion (half of the total supply) have already been created in a token generation event (TGE). 20% of the remaining 1 billion TAMA tokens are saved for use in exchange pools, and up to 30% is expected to be released for minting over the next 10 years.

Increasing market presence via new listings

In the mainstream financial market, whether it concerns crypto or non-crypto projects, we know that exposure can change the course of any asset. It seems like Tamadoge and its team have taken expansion and new listings seriously to grow consistently. As the successful presale of TAMA tokens came to an end, the project made waves with a new goal, which is to increase the number of exchange listings.
