What is Dogizen?

Dogizen, launching early game access on Telegram this August, comes at a time when T2E games are dominating both crypto and gaming circles. As an innovative tap-to-earn (T2E) game, Dogizen offers a canine-themed, travel-focused take on Catizen and Hamster Kombat's proven T2E formula. Dogizen, a fresh take on the addictive 'tapper' formula that's poised to capture the hearts of dog lovers and travel enthusiasts alike.

Dogizen players adopt their very own puppy and by tapping the screen, fill their jar of TREATZ tokens—an in-game utility token that powers every aspect of the gameplay experience.

With TREATZ tokens, players can travel around the virtual globe, making quick stops at iconic locations like the Louvre or indulging in Turkish delicacies. Dogizen unveils a vast universe of digital wonders, where each region harbors distinct storylines and challenges which can be unlocked by earning XP, ensuring user engagement and retention.

The travel component of Dogizen is one of the most interesting angles of the game, and positions it far ahead of the more basic crypto-gaming offerings served up by Catizen and Hamster Kombat. If anything, it feels like these two projects have paved the way for Dogizen to sprint ahead, laying solid foundations for the next generation of Telegram-based gaming endeavors to shine brightly.

Dogizen Key Features

A highly anticipated highlight on the horizon is the introduction of the Dogizen Universe, a gaming ecosystem that will enable developers to create and deploy games within the Dogizen app. This promises to create a diverse gaming experience that goes beyond simple tapping, potentially offering more long-term appeal than Hamster Kombat's straightforward gameplay, with players still able to earn TREATZ through a much wider range of experiences.

This concept echoes the recent comments from OG tapper game Notcoin's creator, Sasha, who recently underscored the importance of T2E (Tap-to-Earn) games evolving beyond simple tapping to

create long-term value. The Dogizen Universe addresses this concern head-on, and could see the game rise to the top of the pile.

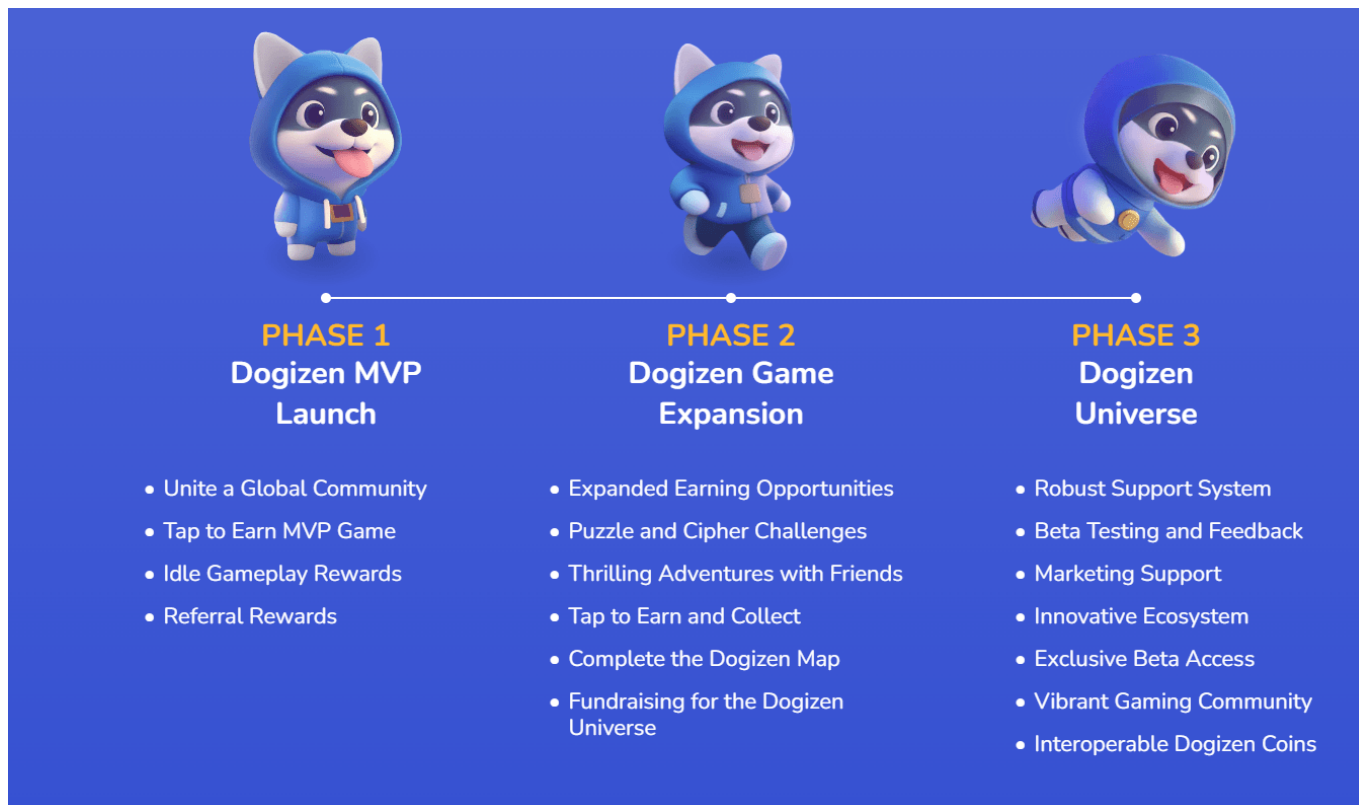

Such a rise could eventually result in success in the crypto markets, too: T2E games frequently introduce crypto tokens that enable to transform tapping into tangible wealth. Notcoin conducted “the largest gaming airdrop of 2024” in May, gifting 90% of its token supply to community members. Subsequently, the NOT token soared to a market capitalization exceeding \$1 billion, vividly showcasing the boundless potential of T2E games that bridge the gap into the crypto realm.

Catizen, another major player with 29 million users, is preparing for a projected \$500 million airdrop, while new entrant DOGS recently announced a 400 billion token airdrop, followed by a listing on top exchange OKX. These monumental token distributions have set high expectations for newcomers like Dogizen, and players will be watching closely to see if it follows suit.

Dogizen Raodmap

Dogizen outlines a detail roadmap for its sustainable growth and development. Dogizen raodmap includes three phases, detail information about each phase can be seen as below chart:

Dogizen vs. Hamster Kombat

While Hamster Kombat has indeed set a formidable precedent with its vast user base and bold decision to forgo VC funding, Dogizen emerges as a formidable contender, bringing a host of innovative features to the table that could challenge its rodent rival's dominance.

Unlike Hamster Kombat's singular focus, Dogizen enables players to explore a virtual globe, where they complete unique challenges amidst the bustling streets of London, the romantic alleys of Paris, and the futuristic skylines of Tokyo. This travel-inspired gameplay injects a captivating depth and engagement that distinguishes Dogizen from its competitors, captivating the hearts of T2E enthusiasts worldwide.

At the core of Dogizen's vibrant ecosystem lie TREATZ tokens, similar to Hamster Kombat's in-game currency, HMSTR. These tokens drive all in-game activities, from completing challenges to purchasing special items, creating a vibrant internal economy.

Moreover, like Hamster Kombat, Dogizen also introduces an idle earning mechanism, rewarding dedicated players with passive TREATZ income. This innovative feature fosters long-term engagement, attracting players to return to the game frequently, even when they're not actively tapping.

Will Dogizen Become Top Dog?

As Dogizen gears up for its debut in this August, the question on everyone's mind is whether it can truly disrupt Hamster Kombat's reign. Boasting innovative features, impeccable timing, and the support of a market ravenous for fresh T2E adventures, Dogizen stands poised to ascend to the top

of the charts and potentially evolve into a lucrative investment prospect in the future.

Amidst the ever-evolving T2E landscape, one fact remains indisputable: the competition between Hamster Kombat, Dogizen, and other burgeoning contenders promises to be a thrilling spectacle, captivating audiences in the upcoming months. With a fresh concept, exhilarating roadmap, and optimal timing, Dogizen is widely expected to become a worthy candidate to conquer the Telegram gaming space.
