What is Tomarket?

A cryptocurrency exchange called Tomarket is being built right now. Members will be able to buy and sell a variety of meme coins and digital currencies. There are several similarities between this project and Blum, another cryptocurrency exchange that was established as a Telegram mini-app.

Users can earn TOMATO tokens through a Telegram Drop Game that Tomarket has designed. Thanks to the popularity of Toncoin-based games like TapSwap, Notcoin, and Hamster Kombat, the game has gained over 4.3 million users since its release.

In the last three months of this year, TOMATO is expected to have its token generation event (TGE) and initial exchange offering (IEO), as per the project roadmap. Get as many tokens as you can while you wait.

Tomarket Airdrop Listing Date

Snapshot for the future airdrop is scheduled on September 2nd, according to the official statement in the game's Telegram channel. Turn on post alerts for updates on the airdrop and TGE. The team said, "We're excited to announce that our official airdrop snapshot is set for September 2nd."

Even if we didn't uncover any concrete proof regarding the airdrop's real date or whether additional snapshots would be released in the future, we can safely conclude that this is the case. Players will have more chances to build towards a favorable balance snapshot before the token launch, which is scheduled for a few months from now, according to the project's plan.
