# What is Towns Airdrop

In Q2 2025, prior to June, the TOWNS token will be airdropped. The community will receive 57% of the overall supply, which is 10 billion. The team and investors receive 35% of the total, while initial node operators and delegators receive 8%.

Interestingly, the airdrop that goes online before June is allotted 10%, or 1 billion. ## Towns Airdrop Eligibility

The following actions can be taken by interested users in order to possibly qualify for this airdrop, as the eligibility requirements are still open. This comprises:

- Adding at least \$10 in Ethereum to the Base wallet
- Registering on the Towns platform
- Setting up a group chat for Town
- Constant use of the platform, including participation in sponsored Towns
- Doing tasks to get points or awards

These are standard conditions for crypto airdrops, however they do not necessarily qualify

consumers. Likewise, the PAWS airdrop, which was postponed because of last-minute eligibility changes, is already underway. Investors need to keep up with the notifications of the airdrop.

## BTCC FAQs

### Is BTCC safe?

Based on its track record since 2011, BTCC has established itself as a secure cryptocurrency exchange. There have been no reports of fraudulent activity involving user accounts or the platform's infrastructure. By enforcing mandatory know-your-customer (KYC) and anti-money

laundrying (AML) procedures, the cryptocurrency trading platform gives consumers greater security. For operations like withdrawals, it also provides extra security features like two-factor authentication (2FA).

### **Is KYC Necessary for BTCC?**

Indeed. Before using BTCC goods, users must finish the Know Your Customer (KYC) process. A facial recognition scan and legitimate identification documents must be submitted for this process. Usually, it is finished in a few minutes. This procedure has the benefit of strengthening the security of the exchange and satisfying legal requirements.

Because their accounts will have a lower daily withdrawal limit, those who do not finish their KYC are unable to make deposits. It should be noted that those who present a legitimate ID without a facial recognition scan will likewise have restricted withdrawal options.

### **Is There a Mobile App for BTCC?**

Indeed. For users of iOS and Android, BTCC has a mobile app. The exchange's website offers the mobile app for download. Since both the web version and the mobile app have the same features and capabilities, they are comparable.

### **Will I Have to Pay BTCC Trading Fees?**

Indeed. BTCC levies a fee for trade, just like a lot of other centralised exchanges. Each user's VIP level, which is unlocked according to their available money, determines the different costs. The BTCC website provides information on the charge rates.

### **Can I Access BTCC From the U.S?**

You can, indeed. According to its website, BTCC has obtained a crypto license from the US Financial Crimes Enforcement Network (FinCEN), which enables the cryptocurrency exchange to provide its services to investors who are headquartered in the US.

According to BTCC's User Agreement document, its goods are not allowed to be used in nations and organisations that have been sanctioned by the United States or other nations where it has a licence.
