VeChain Price Prediction 2023: How High Can VET Realistically Go?

VeChain is among the top-performing cryptocurrencies in 2023, as its price has doubled since the beginning of this year. The crypto is attracting bullish sentiment as the network is expanding further. In this article, we will dive into the VeChain price prediction 2023.

VeChain Price Prediction 2023: How High Can VET Realistically Go?

VeChain is seen as a prime investment this year as it's releasing sustainable developments that could scale its price up. The blockchain will enter the Web3 and NFT spheres called The HiVe and the event is scheduled for Mar. 4, 2023. Two notable speakers will grace the event as it gears up to collaborate with the industry's Web3 players.

In addition, VeChain rolled out its decentralized cryptocurrency wallet on Monday, called VeWorld Wallet. The wallet allows users to fulfill a host of features while utilizing a ledger hardware device. Read here to know more details about how to use and download VeWorld Wallet securely.

Considering all these developments, price forecasting and analytics firm Changelly painted a rosy 2023 price prediction for VeChain. According to Changelly, VeChain could reach a high of \$0.052 by December 2023, with an average trading price of \$0.044. That's an uptick of around 71% from its current price of \$0.030.

"VeChain will not fall below \$0.0439956 in December 2023, with a chance of peaking at \$0.0529947 in the same month. The average trading value is expected to be \$0.0449955," projected Changelly.

At the time of writing, VeChain was trading at \$0.0294, down 6% in the past 24 hours.
