- 24h Trading Volume: \$900,000
- All-Time High (ATH): \$0.00051 (April 2024)

Why Is Vine Coin Trending in 2025?

Several factors have fueled interest in Vine Coin this year:

1. New Listing on Tier-2 Exchanges

VINE was recently listed on exchanges like MEXC and BitMart, improving its liquidity and exposure to global markets.

2. Community-Driven Growth

With over 200K followers across Twitter, Discord, and Reddit, Vine Coin has one of the fastest-growing communities in the meme crypto segment.

3. Partnership with NFT and Video Platforms

Vine Coin Price Prediction 2025: Will VINE Go Up?

Short-Term Forecast (Q3 - Q4 2025)

- Expected Price Range: \$0.00008 - \$0.00018
- Bullish Scenario: \$0.00022
- Bearish Scenario: \$0.00005

In the short term, Vine Coin is likely to remain volatile. However, if VINE gets listed on a Tier-1 exchange like KuCoin or Gate.io, prices could spike 2-3x.

Technical indicators (MACD, RSI) show a possible breakout if VINE crosses the \$0.00010 resistance.

Vine Coin Price Prediction 2026

- Average Price: \$0.0003
- High Estimate: \$0.0005
- Low Estimate: \$0.0001

By 2026, Vine Coin could benefit from broader crypto adoption. If Bitcoin rallies past \$100K and altcoins follow, meme coins with utility could experience exponential growth.

Projects with NFT, gaming, or video use cases, like Vine Coin, may see increased usage.

Factors That Could Push VINE Up:

- NFT integration into Vine ecosystem
- Celebrity endorsements or viral TikTok campaigns
- Burning mechanism to reduce supply

Vine Coin Price Prediction 2027-2028

Year Low Estimate Avg Price High Estimate

2027	\$0.0004	\$0.0007	\$0.0011
2028	\$0.0005	\$0.0010	\$0.0015

By 2027, Vine Coin could reach \$0.001 if it becomes a major payment method in creator economies or decentralized streaming platforms.

Vine Coin Price Prediction 2030: Can It Reach \$1?

- Realistic Target: \$0.005 – \$0.01
- Speculative Target: \$0.05
- \$1 Target: Unlikely under current supply metrics

Why \$1 is Unrealistic Without a Supply Burn:

With a circulating supply of ~95 billion VINE, reaching \$1 would result in a \$95 billion market cap, which would place it higher than Ethereum.

Unless Vine Coin undergoes a massive token burn or economic overhaul, this target is implausible in the next 5 years.

BTCC FAQs

Is BTCC safe?

Based on its track record since 2011, BTCC has established itself as a secure cryptocurrency exchange. There have been no reports of fraudulent activity involving user accounts or the platform's infrastructure. By enforcing mandatory know-your-customer (KYC) and anti-money laundering (AML) procedures, the cryptocurrency trading platform gives consumers greater security. For operations like withdrawals, it also provides extra security features like two-factor authentication (2FA).

Is KYC Necessary for BTCC?

Indeed. Before using BTCC goods, users must finish the Know Your Customer (KYC) process. A facial recognition scan and legitimate identification documents must be submitted for this process. Usually, it is finished in a few minutes. This procedure has the benefit of strengthening the security of the exchange and satisfying legal requirements.

Because their accounts will have a lower daily withdrawal limit, those who do not finish their KYC are unable to make deposits. It should be noted that those who present a legitimate ID without a facial recognition scan will likewise have restricted withdrawal options.

Is There a Mobile App for BTCC?

Indeed. For users of iOS and Android, BTCC has a mobile app. The exchange's website offers the mobile app for download. Since both the web version and the mobile app have the same features and capabilities, they are comparable.

Will I Have to Pay BTCC Trading Fees?

Indeed. BTCC levies a fee for trade, just like a lot of other centralised exchanges. Each user's VIP level, which is unlocked according to their available money, determines the different costs. The BTCC website provides information on the charge rates.

Can I Access BTCC From the U.S?

You can, indeed. According to its website, BTCC has obtained a crypto license from the US Financial Crimes Enforcement Network (FinCEN), which enables the cryptocurrency exchange to provide its services to investors who are headquartered in the US.

According to BTCC's User Agreement document, its goods are not allowed to be used in nations and organisations that have been sanctioned by the United States or other nations where it has a licence.
