What Is Waltonchain (WTC)?

Supply chain management blockchain Waltonchain is building a software and hardware infrastructure to enhance global connection and decision-making capacities. It wasn't until late 2017 that the idea was first unveiled, but its creator had been working on it since 2015.

The whole supply chain is monitored by radio-frequency identification (RFID) data. Along with the Waltonchain native token, WTC, users are also able to create their own tokens on sub-chains. The name Waltonchain is a tribute to RFID pioneer Charlie Walton.

While RFID has been around for some time, Walton is making great strides in the Internet of Things (IoT) by combining it with blockchain technology.

In order to bridge the gaps in supply chain and logistics across several industrial verticals, Walton is creating solutions that utilise hardware (chips) and software (blockchains).

Walton is a cross of POS and POW; it's a hybrid project. So, if you own WTC, you'll want to stake it and run a masternode to make some passive income.

Waltonchain (WTC) Price History

The most recent data shows that WTC is now ranked #988 in the entire crypto ecosystem, with a price of \$0.0729 for Waltonchain. Waltonchain has a marketcap of \$6,439,977 and a circulation supply of 88,358,579 coins.

The Waltonchain price has risen by a respectable 61.96% in the past day, thanks to an uptick in trading volume and market capitalization.

Joining forces with other crypto currency is proving challenging for Waltonchain. The World Trade Centre has dropped by over 53.8% in the past week. Although the coin may have solid fundamentals, we do not believe it would be a successful asset in the near future due to the risky framing portions that have been visible for the previous few days.

Over the past 30 days, the price of WTC has dropped 67.79 percent, wiping out an enormous \$0.1534 on average. The coin is currently in a dip due to this unexpected decline, which could be a great opportunity to buy for quick investment.

Over the last 90 days, the price has fluctuated between an average low of \$0.2254 and a high of \$0.2339, for a total of a 68.27% change.

Over the last four months, the average price of a Waltonchain currency has ranged from roughly \$0.2013 to roughly \$0.1939, a loss of -62.08%.

Waltonchain (WTC) Price Predictions

For clarity's sake, we've broken down the WTC price prediction into two parts: the short-term and the long-term Waltonchain price projections. WTC is able to make accurate price predictions by looking at past price behaviour, news, and public opinion.

We base our price predictions on the most recent Waltonchain (WTC) market data, which is updated in real-time and displayed on our website. This enables us to offer price estimates that are updated in real-time according to market action.

Waltonchain (WTC) Price Prediction 2023

Some have called Waltonchain (WTC) one of the most remarkable new cryptocurrencies of the year. A steep surge, perhaps exceeding \$0.109879., is in store for the second half of 2023 according to the WTC price projection.

The increase will be slow, but there won't be any major declines, just as with other cryptocurrencies. The target price of \$0.102554 seems lofty, but it is within reach in the not-too-distant future thanks to planned partnerships and innovations. With any luck, WTC will be worth at least \$0.087903.

Waltonchain (WTC) Price Prediction 2024

The 2024 forecast for the Waltonchain WTC price indicates a lot of space for growth. We expect WTC's price to rise above \$0.183132 soon due to the introduction of several new collaborations and projects. It would be prudent to hold off on bullish wagers until the WTC relative strength index exits the oversold zone.

Given the current state of the market, WTC is expected to trade between \$0.146505 and \$0.161156 on average.

Waltonchain (WTC) Price Prediction 2025

If the current increasing trend lasts until 2025, WTC stands to gain if the price reaches \$0.256384. Success is far from certain in the event of a market downturn. By 2025, the price of WTC may range from a low of \$0.219758 to a high of \$0.234408.

Waltonchain (WTC) Price Prediction 2030

In 2030, Waltonchain will break all prior price records and surpass its previous all-time highs. Prices range from a low of \$0.586021 to a high of \$0.622647, with an average of \$0.600672.

Is Waltonchain (WTC) a Good Investment?

Due to the fact that scarcity drives up prices, Waltonchain's worth is predicted to keep growing. Be advised that every investment carries a certain degree of risk. Prior to drawing any conclusions, focus on what you can do and make sure you do all the research you can.

If the cryptocurrency market as a whole does well, Waltonchain will have a bright future. Carefully consider your approach before putting your money into WTC. Individuals with an asymmetric risk profile should not engage in this form of investment. Still, for individuals in a strong financial position with a high risk tolerance, it's a fantastic investment. Not only is WTC very speculative, but it also provides access to a rapidly expanding ecosystem and a worldwide technology.

Conclusion

There is no relationship between the Waltonchain's current value and its possible future price. This is, however, decided by the factors that emerge throughout the formation and growth phase of the market. What happens to a WTC in the future is determined by these elements.

Another option is for you to look into the matter on your own. As a first-time purchase, digital coin holders might provide some guidance. Because the cryptocurrency market is so unpredictable, it's hard to say how much any one currency will be worth in the future.

One popular cryptocurrency that has done well thus far is WTC. You should hold off on making substantial investments in Waltonchain until the market crashes, even though it's a fantastic idea in theory.

Keep yourself updated on the latest market news. When deciding what to do, it can be helpful to keep track of the different prices, supports, and resistance levels.
