What Is the XRP Lawsuit All About?

In December 2020, the SEC filed a lawsuit against Ripple Labs, alleging the company sold unregistered securities by offering XRP tokens to investors.

Key points:

- The SEC claims XRP is a security, not a currency.

- Ripple argues XRP is more like Bitcoin or Ethereum, which are classified as commodities.
- The case has been closely watched, as it sets precedent for how U.S. regulators classify crypto assets.

XRP Lawsuit Timeline: 2020 to 2025

Here's a concise breakdown of the lawsuit's timeline:

Date	Event
Dec 2020	SEC files lawsuit against Ripple, alleging XRP is an unregistered security.
2021	Pre-trial motions and discovery process ongoing.
July 2023	Judge Torres rules XRP sales to retail investors are not securities .
Oct 2023	SEC drops charges against Ripple executives (Brad Garlinghouse & Chris Larsen).
2024	Settlement talks reported; XRP relisted on major exchanges (e.g., Coinbase).
June 2025	Final trial hearings conclude.
Q3-Q4 2025	Final decision or settlement expected.

Major Rulings So Far

July 13, 2023 - Partial Win for Ripple

Judge Analisa Torres ruled:

- Retail sales of XRP on exchanges are not securities
- Institutional sales of XRP may still be securities

This was a major win that led to a price surge and partial relisting on exchanges like Coinbase.

October 2023 - Charges Against Execs Dropped

• SEC dropped individual charges against Ripple CEO Brad Garlinghouse and co-founder Chris Larsen.

Ongoing Issues:

- Final ruling on institutional sales
- Whether Ripple will pay civil penalties
- SEC appeal potential

Is the XRP Lawsuit Over in 2025?

Short answer: Not yet—but it's very close.

As of July 2025, the XRP lawsuit is in its final stages, with all testimonies and court hearings concluded. Legal analysts expect a final court decision or a settlement by Q3 or Q4 of 2025.

A resolution could be announced between August and October 2025.

When Will the Final Verdict Be Delivered?

According to court documents and legal insiders:

- The judge has taken final motions under advisement.
- A decision could come anytime in Q3 2025.

- If no settlement is reached, a summary judgment or full verdict will be issued.

Estimated date: September 2025

What Happens After the Lawsuit Ends?

Once the lawsuit is officially over:

If Ripple Wins or Settles Favorably:

- XRP will likely be relisted across major U.S. exchanges
- XRP price could surge significantly
- Ripple may push forward with U.S. expansion
- Legal precedent may influence other crypto lawsuits (e.g., SOL, ADA)

If Ripple Loses:

- XRP could be classified as a security
- May face restrictions on U.S.-based trading
- Ripple could owe financial penalties
- Long-term utility of XRP could still survive internationally

FAQs: XRP Lawsuit Questions Answered

Q1: When is the XRP lawsuit over?

Most legal analysts predict a final decision or settlement by Q3 2025, possibly as early as September.

Q2: Did Ripple win the lawsuit?

Ripple won partial victories, especially on retail XRP sales, but the final outcome regarding institutional sales is still pending.

Q3: Will XRP go up after the lawsuit ends?

Most likely. A favorable verdict could push XRP toward \$1 or higher, especially if relisting on major exchanges resumes.

Q4: Can XRP be traded now?

Yes. XRP is already trading on major exchanges like Coinbase and Kraken, though full trading may expand post-lawsuit.

Q5: Will the SEC appeal if Ripple wins?

Possibly. Legal experts say the SEC may appeal parts of the ruling, but a full appeal could take years and may not halt XRP's progress.

Conclusion: When Is the XRP Lawsuit Over?

The XRP lawsuit is not officially over yet, but it is closer than ever to resolution. With all hearings concluded and motions filed, a final judgment or settlement is expected by late 2025.

If you're holding XRP, now is the time to stay alert. A positive outcome could reshape Ripple's future and elevate XRP to new highs.

BTCC FAQs

Is BTCC safe?

Based on its track record since 2011, BTCC has established itself as a secure cryptocurrency exchange. There have been no reports of fraudulent activity involving user accounts or the platform's infrastructure. By enforcing mandatory know-your-customer (KYC) and anti-money laundering (AML) procedures, the cryptocurrency trading platform gives consumers greater security. For operations like withdrawals, it also provides extra security features like two-factor authentication (2FA).

Is KYC Necessary for BTCC?

Indeed. Before using BTCC goods, users must finish the Know Your Customer (KYC) process. A facial recognition scan and legitimate identification documents must be submitted for this process. Usually, it is finished in a few minutes. This procedure has the benefit of strengthening the security of the exchange and satisfying legal requirements.

Because their accounts will have a lower daily withdrawal limit, those who do not finish their KYC are unable to make deposits. It should be noted that those who present a legitimate ID without a facial recognition scan will likewise have restricted withdrawal options.

Is There a Mobile App for BTCC?

Indeed. For users of iOS and Android, BTCC has a mobile app. The exchange's website offers the mobile app for download. Since both the web version and the mobile app have the same features and capabilities, they are comparable.

Will I Have to Pay BTCC Trading Fees?

Indeed. BTCC levies a fee for trade, just like a lot of other centralised exchanges. Each user's VIP level, which is unlocked according to their available money, determines the different costs. The BTCC website provides information on the charge rates.

Can I Access BTCC From the U.S?

You can, indeed. According to its website, BTCC has obtained a crypto license from the US Financial Crimes Enforcement Network (FinCEN), which enables the cryptocurrency exchange to provide its services to investors who are headquartered in the US.

According to BTCC's User Agreement document, its goods are not allowed to be used in nations and organisations that have been sanctioned by the United States or other nations where it has a licence.
