WienerAI Presale Reaches Over \$1 Million - WAI Next to Pump?

Revolutionary meme coin powered by [AI](#) In less than a month since its start, WienerAI has raised over \$1 million in its initial coin offering.

PetaByte, a well-known cryptocurrency influencer with nearly 80,000 subscribers on X, has sent out a clear message to his followers: don't pass on meme currencies that tell an AI story.

The need for WienerAI is a prime illustration. It's even been deemed by a number of analysts as one of the most promising meme coins to purchase in 2024.

The image shows the WienerAI presale landing page. The background is a dark, futuristic room with computer monitors and equipment. A cartoon dog wearing goggles and a vest is in the center. The text 'WienerAI Part Dog, Part AI, Part Sausage' is prominently displayed. On the right, there is a panel with the following information:

- Next Price Increase In: 01 Days, 17 Hours, 08 Minutes, 41 Seconds
- USDt RAISED: \$606,937.44 / \$946,698
- UNTIL PRICE INCREASE
- YOUR PURCHASED \$WAI = 0
- YOUR STAKEABLE \$WAI = 0
- 1 \$WAI = \$0.000702
- Buttons: ETH, USDT, CARD
- ETH you pay: 0, Max \$WAI you receive: 0

What is WienerAI?

Before crypto whales and smart money traders take notice of a meme currency, it usually needs to meet two criteria. Does it fit in with the prevailing narrative and have the potential to make people laugh?

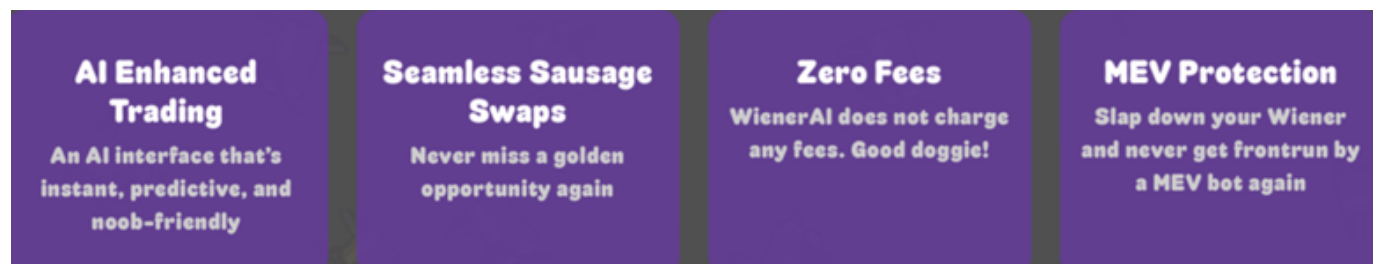

Both areas are where WienerAI is thought to shine by experts.

The WienerAI mascot, a funny-looking hybrid of a dog and a sausage with a curvy, sausage-like torso and a good-boy grin, has really captured the attention of meme coin fans.

On the other hand, \$WAI is an artificial intelligence currency that uses state-of-the-art tech to provide its holders with substantial rewards.

The WienerAI AI bot safeguards investors from MEV bots and facilitates smooth swaps—all without charging them more.

The most crucial aspect is its intuitive design, which enables customers to ask any questions they may have about trading and get accurate, thorough answers. During a bull market, this feature really shines, helping novice traders stay afloat in the usually unpredictable cryptocurrency market.

Other WAI Selling Points- Community-Centric Tokenomics, Staking Rewards

The optimistic mood about WienerAI is being fueled by a number of other causes as well.

The \$WAI staking pool, for example, has an annual percentage yield (APY) of more than 800% right now, which is much greater than the 5% to 7% average in the industry.

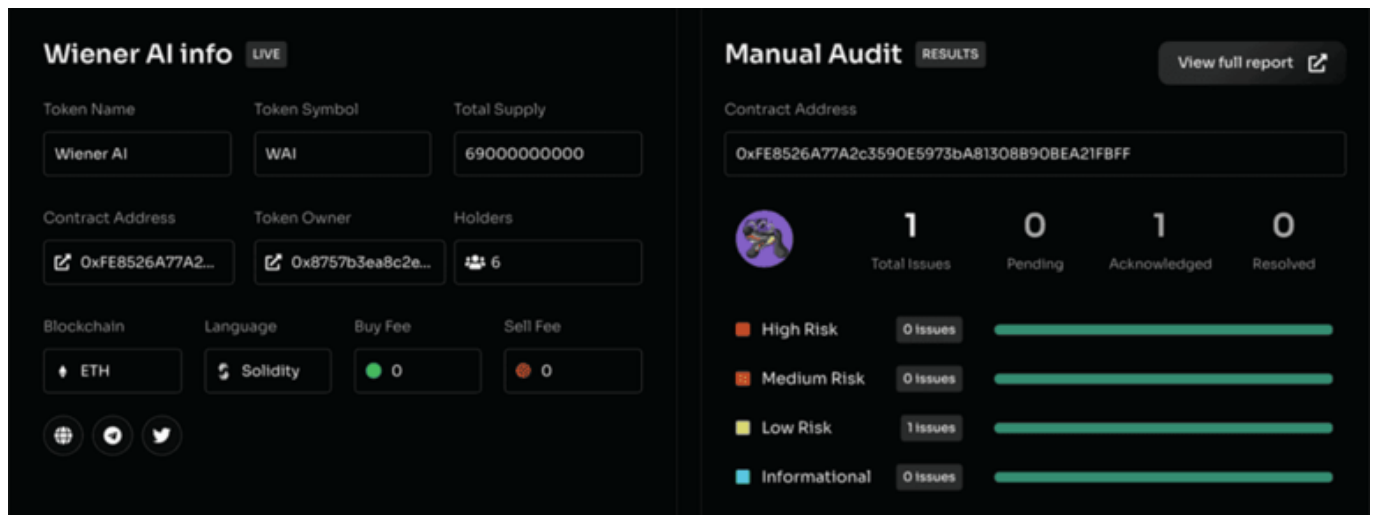

This is a great way for investors to make money without actively managing WienerAI's pricing. As an example, 68% of the ICO tokens have already been staked. There will be less demand to sell \$WAI following its launch because of this.

In order to stay updated on the current reward rate, investors can visit the WienerAI staking dashboard.

Smart, community-centric tokenomics are another reason WienerAI has won over investors. An initial 30% of the total token supply has been reserved for the ICO, with the remaining 20% going to staking rewards.

Twenty percent of the token supply will go towards community benefits, while ten percent will go towards exchange liquidity.

Lastly, its marketing approach will make use of the remaining 20% of WAI tokens. Looking for the best meme currencies to invest in during a bull market is something that investors are continuously doing. Therefore, a strong marketing plan has the potential to change the game.

At long last, an assessment of the WienerAI smart contract has shown no security flaws that would jeopardise customer cash. Because we believe in being completely transparent, you may find the audit report on the project website.

WienerAI Price Prediction

Meme coins are anticipated to be the most lucrative assets of this crypto bull run, which occurred in the first quarter of 2024.

Meme coin pumping, though, is far from done. Despite being at an all-time high, market leader Dogecoin is now trading at a discount of 80%.

Therefore, WienerAI and similar tokens have the potential to generate enormous profits. Both Crypto Boy and popular YouTuber Jacob Bury think WAI has the potential to become the next 100x meme coin.

One more smart-money trader who bought WAI in the presale? Cilinix Crypto just told his followers about it.
