Historical Performance of Zebec (ZBC/ZBCN)

Let's examine how ZBC (now ZBCN) has performed:

| Year | Avg. Price | Highlights |
|-------------|-------------------|--|
| 2022 | \$0.025 | Launched during bear market |
| 2023 | \$0.008 | Price dropped with overall crypto downturn |
| 2024 | \$0.015 | Rebranded to ZBCN, multi-chain expansion |

Key Drivers of ZBCN Price in 2025-2030

Real-World Use Cases

Zebec's real-time payment system gives it clear utility — a rarity in the crypto space.

Solana Ecosystem Growth

As Solana grows in DeFi and enterprise use, ZBCN could be a major beneficiary.

Regulatory Compliance

Its tax-compliant payroll protocol aligns with the future of Web3 employment.

Strategic Partnerships

Zebec partners with Circle, Solana, and various DAOs — a bullish signal for network expansion.

Token Supply and Tokenomics

ZBCN has a fixed max supply of 10 billion tokens. With staking and burn mechanisms, scarcity will

likely increase over time.

Zebec Network (ZBCN) Price Prediction 2025

Estimated Range: \$0.025 - \$0.045

By 2025, Zebec could:

- Secure larger enterprise partnerships
- Expand on Ethereum and Arbitrum
- Get listed on top-tier exchanges like Binance or Coinbase

A modest bull market could easily push ZBCN to \$0.04-\$0.045, potentially 2-3x from 2024 levels.

Zebec Network (ZBCN) Price Prediction 2026

Estimated Range: \$0.045 - \$0.075

If the 2025 Bitcoin halving triggers a sustained bull market in 2026, ZBCN may ride the wave.

Additional drivers include:

- Web3 payroll adoption in startups
- Monthly active users growth
- Mainnet launches of new dApps in the Zebec ecosystem

Zebec Network (ZBCN) Price Prediction 2027

Estimated Range: \$0.070 - \$0.120

As the global market for streaming finance expands, ZBCN could become a top-100 crypto asset. A \$0.10 valuation would reflect:

- Strong protocol revenues
- Institutional usage
- Integration with layer-2 chains like Base or zkSync

Zebec Network (ZBCN) Price Prediction 2028

Estimated Range: \$0.11 - \$0.20

This period may reflect:

- Network maturity
- DAO-run financial applications powered by Zebec
- Token scarcity through lockups, burns, and staking

If Zebec achieves mass adoption, it could enter a high-growth phase, with price doubling from 2027 levels.

Zebec Network (ZBCN) Price Prediction 2029

Estimated Range: \$0.18 - \$0.28

If Zebec captures even 5-10% of the payroll automation market in crypto and fintech, its price could see exponential growth.

The team may also release new products such as:

- Zebec Enterprise APIs
- Streaming lending protocols
- Cross-border remittance dApps

Zebec Network (ZBCN) Price Prediction 2030

Estimated Range: \$0.25 - \$0.45

In a bullish scenario:

- Zebec becomes a top-50 coin
- Used by DAOs, global companies, and freelancers
- Widely adopted across DeFi, subscriptions, and pay-as-you-go models

If achieved, a \$0.45 token price could place ZBCN at a \$4.5 billion market cap, a realistic long-term target.

BTCC FAQs

Is BTCC safe?

Based on its track record since 2011, BTCC has established itself as a secure cryptocurrency exchange. There have been no reports of fraudulent activity involving user accounts or the platform's infrastructure. By enforcing mandatory know-your-customer (KYC) and anti-money laundering (AML) procedures, the cryptocurrency trading platform gives consumers greater security. For operations like withdrawals, it also provides extra security features like two-factor authentication (2FA).

Is KYC Necessary for BTCC?

Indeed. Before using BTCC goods, users must finish the Know Your Customer (KYC) process. A facial recognition scan and legitimate identification documents must be submitted for this process. Usually, it is finished in a few minutes. This procedure has the benefit of strengthening the security of the exchange and satisfying legal requirements.

Because their accounts will have a lower daily withdrawal limit, those who do not finish their KYC are unable to make deposits. It should be noted that those who present a legitimate ID without a facial recognition scan will likewise have restricted withdrawal options.

Is There a Mobile App for BTCC?

Indeed. For users of iOS and Android, BTCC has a mobile app. The exchange's website offers the mobile app for download. Since both the web version and the mobile app have the same features and capabilities, they are comparable.

Will I Have to Pay BTCC Trading Fees?

Indeed. BTCC levies a fee for trade, just like a lot of other centralised exchanges. Each user's VIP level, which is unlocked according to their available money, determines the different costs. The BTCC website provides information on the charge rates.

Can I Access BTCC From the U.S?

You can, indeed. According to its website, BTCC has obtained a crypto license from the US Financial Crimes Enforcement Network (FinCEN), which enables the cryptocurrency exchange to provide its services to investors who are headquartered in the US.

According to BTCC's User Agreement document, its goods are not allowed to be used in nations and organisations that have been sanctioned by the United States or other nations where it has a licence.
